JUDITH FUTERFAS

<https://en.wiktionary.org/wiki/shanda>

From Yiddish שאנְדָה (shande). Shonda

Noun - shanda (Jewish) shame; disgrace.

<https://en.wikipedia.org/wiki/Hubris>

In its modern usage, hubris denotes overconfident pride combined with arrogance.^[2] Hubris is often associated with a lack of humility. Sometimes a person's hubris is also associated with ignorance.

<https://www.merriam-webster.com/dictionary/monolithic>

Constituting a massive undifferentiated and often rigid whole - a monolithic society. Exhibiting or characterized by often rigidly fixed uniformity - monolithic party unity.

<https://www.thefreedictionary.com/dogmatic>

Asserting or insisting upon ideas or principles, especially when unproven or unexamined, in an imperious or arrogant manner. Characterized by such assertion, often with an unconsidered rejection of criticism.

<https://www.merriam-webster.com/dictionary/extrajudicial>

Done in contravention of due process of law.

Do not judge, and you will never be mistaken. Jean-Jacques Rousseau

Judge tenderly, if you must. There is usually a side you have not heard, a story you know nothing about, and a battle waged that you are not having to fight. Traci Lea Larussa

*The Bible stokes fear and judgement;
Our Constitution demands due process and justice.* Judith Futerfas

Psalm 15 (This is often said at Jewish funerals. There are preferable, soothing, less dogmatic passages):

God, who may abide in Your House?

Who may dwell in Your holy mountain?

Those who are upright, who do justly;

Who speak the truth within their hearts;

Who do not slander others, or wrong them, or bring shame upon them;

Who scorn the lawless, but honor those who revere The Lord;

Who give their word, and, come what may, do not retract;

Who do not exploit others; Who never take bribes.

Those who live in this way shall never be shaken.

US Constitution, Amendment V:

No person shall be held to answer for a capital, or otherwise infamous crime ... nor be deprived of life, liberty, or property, without due process of law.

https://www.law.cornell.edu/wex/religion_and_the_constitution

Because of their belief in a separation of church and state, the framers of the Constitution favored a neutral posture toward religion. The members of the Constitutional Convention, the group charged with authoring the Constitution, believed that the government should have no power to influence its citizens toward or away from a religion. The principle of separating church from state was integral to the framers' understanding of religious freedom.

O SAY, CAN'T YOU SEE? IF WE ARE NOT THAT BEACON, WHO WOULD BE?

<https://www.history.com/topics/world-war-ii/nuremberg-trials>

Findings at Nuremberg led directly to:

United Nations Genocide Convention (1948)

Universal Declaration of Human Rights (1948)

Geneva Convention on the Laws and Customs of War (1949)

<https://www.history.com/topics/19th-century/the-star-spangled-banner>

“...Though his celebrated anthem proclaimed the United States “the land of the free,” Key was in fact a slaveholder from an old Maryland plantation family, and as a U.S. attorney argued several prominent cases against the abolitionist movement. He did speak out against the cruelties of the institution of slavery, but did not see abolition as the solution. Instead, Key became a leader of the colonization movement, which advocated the relocation of black slaves to Africa...”

Pay close attention to what these presidents had to say ...
Their concerns are more important now than ever ...

<https://libertarianinstitute.org/articles/truman-right-cia/>

<https://www.trumanlibrary.gov/library/personal-papers/merle-miller-papers>

"...But even if Truman's homespun honesty and common man persona sometime wore thin, he deserves enormous credit for the startling admission that he regretted creating the CIA. Speaking to a biographer in the 1960s, less than 20 years after signing the National Security Act of 1947, Truman expressed a sense of foreboding about what the agency had become, and would become:

Merle Miller: Mr. President, I know that you were responsible as President for setting up the CIA. How do you feel about it now?

Truman: I think it was a mistake. And if I'd know what was going to happen, I never would have done it.

Truman: The President needed at that time a central organization that would bring all the various intelligence reports we were getting in those days, and there must have been a dozen of them, maybe more, bring them all into one organization so that the President would get one report on what was going on in various parts of the world. Now that made sense, and that's why I went ahead and set up what they called the Central Intelligence Agency.

Truman: But it got out of hand. The fella ... the one that was in the White House after me never paid any attention to it, and it got out of hand. Why, they've got an organization over there in Virginia now that is practically the equal of the Pentagon in many ways. And I think I've told you, one Pentagon is one too many.

Now, as nearly as I can make out, those fellows in the CIA don't just report on wars and the like, they go out and make their own, and there's nobody to keep track of what they're up to. They spend billions of dollars on stirring up trouble so they'll have something to report on. They've become ... it's become a government all of its own and all secret. They don't have to account to anybody.

That's a very dangerous thing in a democratic society, and it's got to be put a stop to. The people have got a right to know what those birds are up to. And if I was back in the White House, people would know. You see, the way a free government works, there's got to be a housecleaning every now and again, and I don't care what branch of the government is involved. Somebody has to keep an eye on things.

And when you can't do any housecleaning because everything that goes on is a damn secret, why, then we're on our way to something the Founding Fathers didn't have in mind. Secrecy and a free, democratic government don't mix. And if what happened at the Bay of Pigs doesn't prove that, I don't know what does. You have got to keep an eye on the military at all times, and it doesn't matter whether it's the birds in the Pentagon or the birds in the CIA.

This is a remarkable statement by Truman, even if delivered during a relatively unguarded moment with a trusted biographer. It shows a humility and willingness to admit grave error that is lacking in public life today. It also stands on its own as a inadvertent libertarian argument against state power itself..."

PRESIDENT ABRAHAM LINCOLN - GETTYSBURG ADDRESS

NOVEMBER 19, 1863

"... It is rather for us, the living, we here be dedicated to the great task remaining before us that, from these honored dead we take increased devotion to that cause for which they here, gave the last full measure of devotion that we here highly resolve these dead shall not have died in vain; that the nation, shall have a new birth of freedom, and that government of the people, by the people, for the people, shall not perish from the earth..."

PRESIDENT DWIGHT EISENHOWER - FAREWELL ADDRESS

JANUARY 17, 1961

<https://www.eisenhowerlibrary.gov/sites/default/files/research/online-documents/farewell-address/1961-01-17-press-release.pdf>
<https://www.youtube.com/watch?v=OyBNmecVtdU>

Listen from 2:50 "... we yet realize that America's leadership and prestige depend, not merely upon our unmatched material progress, riches and military strength, but on how we use our power in the interests of world peace and human betterment. Throughout America's adventure in free government, our basic purposes have been to keep the peace; to foster progress in human achievement, and to enhance liberty, dignity and integrity among people and among nations ...

7:06 ... Our military organization today bears little relation to that known by any of my predecessors in peacetime, or indeed by the fighting men of World War II or Korea ...

8:41 ... In the councils of government, we must guard against the acquisition of unwarranted influence, whether sought or unsought, by the military-industrial complex. The potential for the disastrous rise of misplaced power exists and will persist. We must never let the weight of this combination endanger our liberties or democratic processes. We should take nothing for granted. Only an alert and knowledgeable citizenry can compel the proper meshing of the huge industrial and military machinery of defense with our peaceful methods and goals, so that security and liberty may prosper together. Akin to, and largely responsible for the sweeping changes in our industrial-military posture, has been the technological revolution during recent decades. In this revolution, research has become central, it also becomes more formalized, complex, and costly. A steadily increasing share is conducted for, by, or at the direction of, the Federal government. Today, the solitary inventor, tinkering in his shop, has been overshadowed by task forces of scientists in laboratories and testing fields. In the same fashion, the free university, historically the fountainhead of free ideas and scientific discovery, has experienced a revolution in the conduct of research. Partly because of the huge costs involved, a government contract becomes virtually a substitute for intellectual curiosity. For every old blackboard there are now hundreds of new electronic computers. The prospect of domination of the nation's scholars by Federal employment, project allocations, and the power of money is

ever present and is gravely to be regarded. Yet in holding scientific research and discovery in respect, as we should, we must also be alert to the equal and opposite danger that public policy could itself become the captive of a scientific-technological elite. It is the task of statesmanship to mold, to balance, and to integrate these and other forces, new and old, within the principles of our democratic system -- ever aiming toward the supreme goals of our free society ...

12:00 ... We want democracy to survive for all generations to come, not to become the insolvent phantom of tomorrow. During the long lane of the history yet to be written, America knows that this world of ours, ever growing smaller, must avoid becoming a community of dreadful fear and hate, and be instead, a proud confederation of mutual trust and respect. Such a confederation must be one of equals. The weakest must come to the conference table with the same confidence as do we, protected as we are by our moral, economic, and military strength. That table, though scarred by many past frustrations, cannot be abandoned for the certain agony of the battlefield.

Disarmament, with mutual honor and confidence, is a continuing imperative. Together we must learn how to compose differences, not with arms, but with intellect and decent purpose ...

13:35 ... I wish I could say tonight that a lasting peace is in sight ... "

Transcript: 2.5.17 President Trump to Bill O'Reilly – "We got a lot of killers"

2.5.17 Bill O'Reilly interviews President Trump about Putin (link to video)

<https://video.foxnews.com/v/5311416183001#sp=show-clips>

2:10 O: You talked to Putin last week. You had a busy week last week.

T: A pretty busy week. Busy week and a half.

O: Do you respect Putin?

T: I do respect him.

O: Do you? Why?

T: Well, I respect a lot of people. But that doesn't mean I'm gonna get along with them. He's a leader of his country, I say it's better to get along with Russia than not, and if Russia helps us in the fight against ISIS, which is a major fight, and Islamic terrorism all over the world,

O: Right.

T: Major fight. That's a good thing. Will I get along with him? I have no idea. It's very possible I won't.

2:39 O: He's a killer though. Putin's a killer.

T: There's a lot of killers. We got a lot of killers. Well, you think our country's so innocent? Do you think our country's so innocent?

O: I don't know of any government leaders that are killers.

T: Well...take a look at what we've done to - made a lot of mistakes. I've been against the war in Iraq from the beginning

O: Yeah, but mistakes are different than

T: Made a lot of mistakes, ok, but a lot of people were killed, so

O: Alright.

T: A lot of killers around, believe me.

O: Let's talk about Mexi

Subject: The Forensic Science Symposium is Going Virtual

Dear Judith,

Thank you for abstract submission to the 9th Annual Forensic Science Symposium. As we navigate our response to the COVID-19 outbreak we are considering moving this year's event online for the health and safety of everyone involved. If you haven't already, please fill out this [short survey](#) so we can gage interest and ability.

Feel free to contact us with any questions at forensics@fiu.edu at any time.

Sincerely,

Global Forensic and Justice Center

Subject: Your Abstract has been Declined

Good Morning Judith,

Thank you for our submission, *Witness to Horror - Rise of the Medical-Military Industrial*, to the Virtual 9th Annual Forensic Science Symposium. While we appreciate your time and effort, we have decided not to include your presentation in this year's event.

If you said you weren't interested or couldn't present through our virtual platform, we declined your presentation. If you'd like to change your mind, please email forensics@fiu.edu to be re-considered.

We still invite you to attend this year's online event June 1-5. Please look out for registration information shortly.

Respectfully,

The Global Forensic and Justice Center.

Session Information

Title: Witness to Horror - Rise of the Medical-Military Industrial

Objective: Convey need for: awareness/counter/detection measures- killings appear as natural/unknown include lethal biologics/carcinogens in food - cancer seeding directly. Altered tumor markers mask true disease status. Need standardized Student Bill of Rights.

Abstract: I was fired in 2017 after 12 years as a Tumor Registrar. In this job I detailed diagnosis and treatment of cancers. I reported multiple times findings and instructions contrary to ethical and standard practices. I was severely retaliated against and threatened. I was fired after reporting this threat in response to a good evaluation. The threat against me was that something malicious occurred at an elective surgery I had up North. After the threat I went back up North for consults and also into Canada to check my tumor markers. My tumor markers and labs have been deliberately altered on several occasions. I am also aware of cases of people having yearly tumor markers (PSA, etc.) always appearing normal, then find out they have spread of disease. This is a rare occurrence naturally; I believe it is deliberate as well. Masking elevated tumor markers will lead to disease spread and death, as well as increased revenue to

treat. I believe people have also been killed using what I term "high-level lethality": murders, in and out of medical facilities appear natural (heart attack, "elevated labs", etc.) or at best unknown. In this latter instance I am quite sure a "high-level" biologic is being ingested in food. These people wake up only briefly, if ever again, some hours after ingestion. The cases I am aware of are very healthy people, not in hospitals. As a graduate student years ago I collected data for an outside entity and was paid via grant money. This person was not affiliated with an academic institution. He was a State employee. In hindsight, I wish I had never met him. I did get him vast amounts of data but it appears he has been furious for years because I did not get him a brief paper. I never heard from him in these regards. I did not know him much at all. He appears to be protected and acting with impunity - scarcely so. He lives in Tampa but has showed up once in Miami, where I was, and I believe again - making sure I saw him. I feel he is involved in this ongoing retaliation - I believe in Due Process and that no one is above or beneath the law. This is not the type of person we want around students, or in any position of authority. I think there should be a standardized US Student Bill of rights, minimally stating: *All People working with Student(s), in and/or outside of the academic institution(s) and regardless if these institutions are public and/or private, or any other combination of designations, must be vetted, and abide by the US Constitution. **All People working with Student(s) must fully disclose to these Students and the academic institution(s) any and all Intelligence related work and/or activities, paid or otherwise, for the US and/or all other entities. <https://www.intelligence.gov/> *** All Students have All Rights as conveyed by the US Constitution, including a Right to Self-Determination and to Due Process.

Subject: Re: 9th Annual Forensic Science Symposium Submission

Thank you xxx. I hope to be working (remotely for pay) but if not will be glad to listen in real-time. I am not sure if you looked at my submission, but certainly in light of what I have reported and documented, much work is needed in ethics and check/balances over entities that have access to highly lethal materials, including biologics. As you likely know, that would include at least the military and certain labs. All organizations have checks for internal security. I can't even get anyone to investigate (in general, a massive cover-up), and one particular deceased was not checked for "high-level" biologics (currently not unusual) although after learning more (and burial out-of-state) I realized this was very likely the cause. Apparently his cause of death was listed as unknown (including partial autopsy). This biologic was put in his food while at a celebratory dinner. He never woke up after retiring for the night.

I hope in the future more information from your center and associates will be presented on ethics and controls over legitimate entities with such deadly access. Also, I think Americans have a right to know what these deadly substances are, including symptoms and antidotes. Pathologists should automatically check for these as a cause of death in certain cases. In terms of my other documentation, certainly there should be cameras in all patient rooms (with their approval to turn on). Of course perpetrators and facilitators should be prosecuted vigorously as they have not only violated the Constitution, but no doubt an oath of duty and public trust.

I won't take much more of your time but I am sure this is of concern to you and should be for all of us. I have enclosed a 7-page letter to FIU that will give you a brief (horrid) overview and more explanation and detail of what I have mentioned here, if interested... My larger book (documentation) can be found (no cost) at my website listed below. The most detailed listing of murders is in my 40-page letter to Judge

**HUMANITY'S ABYSS - EXTRAJUDICIAL TERROR COLLUSION, CONSPIRACY, KILLINGS, COVER-UP
EDUCATION-MEDICAL-MILITARY INDUSTRIAL HUBRIS OF MONOLITHIC RELIGION**

Economou, which I will send upon request. I call them sanctioned and extrajudicial killings because they are with regulated and controlled substances - someone with authority to stop this has allowed these killings to occur (biologics, hospital chemicals causing a "heart attack", etc.). You will read about Richard Flamm in the 7-pages as well - he is involved in this h_ll, and when I knew him worked for Florida Fish and Wildlife - just saying. (He should be in prison but is one of the protected, maybe even still working there.)

Much appreciation again, *Judy*

Hi xxx,

Sorry to bother you again, but if you are at all interested in what I had sent you last, this is one more email you may want to see. I have not had a response from anyone ... Very scary situation when schools are agents of a National Security State. Florida is off-the-charts unconstitutionally, in many respects, it seems. I know you received this attachment with my last email but it was included in the mailing to those below so I am leaving it. I can send the first email that was sent to President Rosenberg with this, but the seriousness is conveyed regardless. [Ed: Email 1/2 to FIU President Rosenberg is below]

Thanks again, *Judy*

Cc: Judith Futerfas <xxx>
Subject: To: Dean Heithaus

Dear Dean Heithaus,

I received my MS in Environmental Sciences from FIU in 2003. Unfortunately, I subsequently have a horrid story in these and related regards. I have detailed my concerns at my website ourconstitution.info, including a linked draft of my new book (mainly documentation), and other information.

Enclosed is my 7-page letter dated 8.20.19 to Mr. Wiles, former Executive Director of the FIU Alumni Association. This provides a good summary, although certainly not inclusive, including subsequent events.

As a main complaint, I wish I had never met an FWS employee named Richard Flamm. I met him at a DERM (County) Manatee Action Group meeting while I was enrolled at FIU. He was there from Tampa, where he apparently still lives. As I recall, I agreed then and there to help him with data collection, as he had solicited. In hindsight, I wish I had understood more about what was involved, and knew more about him. He should have been vetted to work with students, and I wish now that I had never met him. He did secure some grant money (paid out via FIU), and I did collect a large amount of data for him and submitted three reports to the State. Unfortunately, I did not get him a brief paper he had requested. I also never heard back from him in these regards. It appears he has been angry about this since, and seems to perhaps be dangerous and/or unstable. Besides very serious events that I document, Flamm has been here twice in recent years, the latest being late last year (I am very sure it was him and have reported this to police). In both instances, at different locations I had planned to be at, he made sure that I saw him and he never said a word, quickly leaving. In the past I have offered any reasonable compensation in letters to Ronnie Austin, an FWS OIG investigator, but never heard back in these regards.

**HUMANITY'S ABYSS - EXTRAJUDICIAL TERROR COLLUSION, CONSPIRACY, KILLINGS, COVER-UP
EDUCATION-MEDICAL-MILITARY INDUSTRIAL HUBRIS OF MONOLITHIC RELIGION**

You will see that the retaliation has been horrid and scary, including suspicious deaths. I am also a fired whistleblower from the University of Miami, and they are involved as well. For the greatest detail regarding concerning deaths, I will forward the 40-pages to Judge Economou (referenced at my site) upon request. No student should ever be put in this situation. That Flamm is even working in government, in a position of power, is very alarming. He should probably be in prison (along with others I mention).

My funds are limited and I am still paying back my student loans, which were substantial. Regardless, I feel that anyone working with students, from within or outside of the academic institution, should be vetted first. I am requesting that FIU return the grant money that I used (I used only part of the total amount). I really want no association with Flamm, although he is mentioned in my thesis. I do believe that no one is above or beneath the law, and am hoping that this is all formally investigated and due process and justice meted - for me, patients, students, and all of us. (More about what I term the 'Medical-Military Industrial' at my site.) My professors from FIU were all outstanding and I believe are not aware of what has transpired since.

I think there should be something like a National Student Bill of Rights, including (from my website):

- *All People working with one or more Students, in and/or outside of the academic institution(s) and regardless if these institutions are public and/or private, or any other combination of designations, must be vetted, and abide by the US Constitution.**
- **All People working with one or more Students must fully disclose to these Students and the academic institution(s) any and all Intelligence related work and/or activities, paid or otherwise, for the US and/or all other entities. <https://www.intelligence.gov/>**
- ***All Students have All Rights as conveyed by the US Constitution, including a Right to Self-Determination and to Due Process.**

Thank you. I will be glad to speak with you or a representative at your earliest convenience, as well as forward further requested documentation. *Judy*

Subject: 1/2 FIU President Re: 1/3 FIU President Fw: 1/2 FIU S Trelles Fw: Closure of Complaint

[Ed: Email 2/2 to President Rosenberg is in the section above.]

Dear President Rosenberg,

Below is a letter I sent you over a year ago. Included at that time was the 40-page letter to Judge Economou, 20-pages each in two emails (of the three). If you would like any of this past correspondence resent, I would be glad to do so.

In the next email here (2/2) please see my related more recent, further request and attachment to FIU staff. This attachment is a letter that I sent to FIU's Mr. Wiles later last year, further describing my concerns with Dr. Richard Flamm (FWS Tampa employee) as well as the University of Miami, etc. This should be, in the context of terrorizing, unconstitutional, but sanctioned and extrajudicial behavior in the US, just as alarming as the 40-pages I sent to Judge Economou. It is all horrid.

I had requested that the money Dr. Flamm secured in grants while I was a graduate student at FIU, be returned to those agencies. FIU had managed those funds. I have not heard back regarding this and hence am making this request of you.

Thank you again and please let me know of any further questions or concerns. Please advise if you will agree to do this.

Judy

Subject: 1/3 FIU President Fw: 1/2 FIU S Trelles Fw: Closure of Complaint

Dear President Rosenberg,

I last emailed you on 4.6.18 with forwards of documents I had sent to several State agencies and other overseeing entities. The email I used was jfuter@hotmail.com. These very serious concerns, with more information enclosed, are being covered-up. It would appear that the FWS employee, Richard Flamm, who got some grant money for my FIU MS project (years ago, 2000 or so), is at the very least knowledgeable about this horrid retaliation. Also, I am a fired whistleblower from UM, and my boss there had threatened me. A UM patient (Joan M.) was killed at Bethesda East in retaliation for my complaints about UM to the Joint Commission. I knew Joan well, and saw her days prior to her death -- she had no imminently, lethal condition. More information regarding that, Flamm, and other matters is in these three emails.

Needless to say, I wish I had never met Flamm. I am requesting an investigation by FIU into his level of involvement with all of this. I do feel this is conspiracy and collusion, with involvement of UM, the State, and Miami-Dade County. I was fired after 12 years at UM for reporting a vile threat by my manager in

my written response to a good 2016 evaluation and approximately \$10,000 raise. My boss had threatened me in 2016 and had stated that I had, "complained about a lot of people". I reported cancer data manipulations in violation of State law to the overseeing entity in Tallahassee. The State did not take any action saying that UM patients were not State employees.

I had met Flamm at a Miami-Dade County manatee related meeting -- never knew him much at all. I have written the State BOE and other agencies requesting that any person working with students outside of their educational institution be vetted. I believe there has been horrid retaliation, including deaths, after I would report. I am still reporting these concerns as I am named for a small amount of money in a Bradenton probate and believe there has been interference in those matters as well. (I also have concerns for the circumstances of the death of that person and know that numerous mailings, UPS, FedEx, and regular mail have been "lost" or "delayed" in this regards, as well as high-level hacking at UM and home). More detail is enclosed. I am re-sending you these two 20 page atts -- they are very detailed regarding this h_ll.

Contrary to what Ms. Trelles at Student Affairs wrote, I believe FIU does have a responsibility to help determine what role Dr. Flamm had in this ongoing, horrid, illegal activity. I would like to say that FIU would want to know this -- I hope that is indeed the case. It is concerning to me as well that Flamm may have "been aware" of the FIU bridge "problems". I have protested UM on US 1 at their bridge since before the FIU bridge collapse. Just horrid -- and no one should be allowed to act in the manner I describe. Certainly, and especially, not a government employee, someone paid with my tax dollars, a person with power over others, and/or someone working with students.

I am glad to meet with you at your earliest convenience and answer further questions.

Thank you,

Judy

Subject: Re: 1/2 FIU S Trelles Fw: Closure of Complaint

Ms. Trelles,

Nice meeting you and thank you for your concern earlier today. I did not realize it was the one-year mark of the tragic bridge collapse. The brief ceremony, with all joining hands for a moment of silence with bells tolling, was very poignant and sad, and important... I have concerns also in those regards because I have been protesting UM at their cross-over bridge on US 1 -- and some UM staff (along with Dr. Richard Flamm and others mentioned) appear to have distinct elements of evil in their make-up. I have reported those concerns to authorities.

Regarding my emails to you yesterday, these are very serious complaints involving Dr. Flamm. Any university, in this case FIU, should be very alarmed and want to get to the bottom of this retaliation. You said that you had read everything I sent. Appreciate that -- it was a lot!

As bad as the recent college entrance scam news is, I haven't heard that anyone's been threatened, severely hacked, and/or physically harmed. My concerns are much worse, as horrid as those complaints are. Alarms should go out at FIU and nationwide regarding people using their seeming authority and supposed trustworthy, decent nature, in this case as a State employee, to undermine the US Constitution, due process, and the subservient, willing nature of students. Anyone and everyone helping students must be vetted, as we know university professors are. Those working with students from the outside must understand that a student has rights including to full disclosure regarding this person's character and any opinions divergent from the laws and Constitution. Some of our own Intel agencies operate illegally, so this information would also be important -- not everyone agrees with how those organizations function. In America, no one should be above the law, nor beneath it.

Obviously, I (and another classmate) received some grant money from Flamm (he got it from other State organizations) as an FIU student, towards work related to my degree, and so this is indeed a matter for FIU to investigate and be quite concerned about. The money was held by and distributed from FIU. I worked hard and diligently and Flamm got over 12,000 detailed boater entries that I had submitted in Excel and a long (about 90 question) phone survey of about 300 boaters.

There is no place in our educational system for people like this, and I would like to think no place in government either ... However, the educational system is of most concern because of the power inequity and potential for greater harm due to the trusting and in large part financially needy nature of that student population. Those working with students must be above reproach and their ethics unquestionable.

Thank you again. You said that you would look into what the next steps might be and keep me apprised. Judith Futerfas

Subject: 1/2 FIU S Trelles Fw: Closure of Complaint

Dear Ms. Trelles,

I am a 2003 MS graduate of FIU in Environmental Sciences. I received some outside grant money at that time from Richard Flamm, PhD, who works (then and now) with the FWS in Tampa. Another student also collected some of this data using this grant money from Flamm. (I received in total much more money from other grants and loans which I am still paying back.) I did not know Flamm but met him at a Miami-Dade County MAG (Manatee Action Group) meeting. I still don't know him much -- At that initial meeting he asked if I wanted to collect manatee-boater data and submit a paper and he would secure some funds. I like writing and felt sure, I could write-up a brief paper. I saw him a few times after that, including three times when he came to monitor my data collection (this was all back in 2000 or so). He came to FIU once then and gave a presentation.

I collected all of this data for the agreed upon time-frame -- over 12,000 boater entries and a FIU IPOR extensive boater survey, which I had entered into Excel. I focused my thesis analysis on the boater phone survey which was my main interest. I assumed I could use that as the paper to write for him, or whatever else I wanted. I realized much later (in hindsight actually) that the paper he had initially referred to was regarding the boater collection data -- which I diligently collected but had little interest in analyzing.

I did not get him his brief paper and did not hear from him. It seemed at the time that there was some conflict with my major professor and him, although that apparently was not the case. I have since offered, multiple times, any reasonable compensation in these regards. (In hindsight, I do believe that had I submitted my boater phone survey paper he would have probably been angry and demanded another paper with the boater observation data, which I would have done.) In 2011 approximately, after the extreme cold and manatee deaths of 2010, my FIU professors and I contacted Flamm about a paper. However, Flamm declined, stating that the data was old and that there were two manatee speed zones at the data collection site (which there always had been).

There has been horrid things (deaths, threats, etc.) that have occurred over the years, briefly outlined below. It is apparent that Flamm is involved. I forgot to mention below (to the OIG) that when I was on the Miami-Dade County Manatee Protection Plan Review Committee about 2009, the County lead, Susan Markley, who knew Flamm, deleted the "MS" from my nameplate. You will also see that I am sure UM and the State are involved as well. (A bit more information on that below. Tim Ramsay was in charge of UM IT when I met with him and reported multiple, documented issues with targeted, high-level hacking against me when I worked there. I believe he is now at World Fuels.)

UM I have been dealing with. However, Flamm is a very serious concern as it seems that anyone can approach a student and work with them, without being vetted. I would never have worked with someone as vindictive and retaliatory as it appears he is. I doubt he could ever get a job at a university and I wonder exactly why he has all these papers to his name?

I am concerned that students be protected, and frankly, if Flamm has indeed been a part of this horror, that he is brought to justice. I have not received a response from the FWS OIG to my response to them below. This smacks further of the cover-up that has been going on.

You will see mention below of a 40 page document submitted to the Manatee County Court. Pages 21-40 are att here and the first 20 next with an important email they were sent with, should you choose to look at these atts. The gist of my concerns are here, with further details of concern, dates, etc. in the 40 pages. I have an appointment with you at 1pm tomorrow, 3.15.19, to further discuss this.

Thank you very much, *Judy*

Subject: Re: Closure of Complaint

Hi Isabel,

As I mentioned to you earlier this week on the phone, thank you for looking into this, but I still have very serious concerns. My response is quite detailed and took longer than expected. Because of the detailed, but more concise nature of this response, I am also sending to the CIG as a reference. Apparently you reviewed my information, not Ms. Weiskotten (Jana)? I was under the impression that she was looking into this. You said that FWS is not responsible for looking into concerns regarding activities at other agencies. However, you agreed that if someone from FWS was involved in nefarious, concerning, etc. activity, anywhere, that that would be of concern to FWS. Apparently my very serious concerns have not been investigated to the extent to know if there was indeed some perhaps concerning or unethical, if not illegal, activity on the part of Dr. Richard Flamm. You said my complaints were also reviewed by the IG. I had already written much of the response below before we spoke -- just highlighting points of concern ... many are in the form of a question ...

Exactly what did Mr. Austin (Ronnie) mean when he asked me if I thought Flamm was "mad" that I hadn't gotten him his brief paper? It seems no one has ever cross-checked email, phone calls, travel, etc. with names of those I believe are involved (you have these names)? Have you (FWS) ever done that? You don't know definitively that Flamm is not involved with those other complaints, including those sent last time (below), do you? Do you know that this is not an effort of collusion/conspiracy? Just because other concerns I have involve other entities, in other locations, does not mean they do not involve your institution/employees, and vice-versa. Flamm does travel and has very high-level computer skills and no doubt has computer access to whatever he wants (?) -- if you recall I was subject to extremely high-level phone (personal) and email hacking at home and work (UM) ... Did you ask Flamm about that? I initially met Flamm in Miami about 2000. As I have also reported,

he was at the Pinecrest Market again here a few years ago -- he stopped maybe 30 feet away in my direct line of sight, then just walked by my table (with pocket Constitutions I hand out) not saying a word. I'd call that suspicious and I did report this at the time. Did you ask him about that?

Where was Ms. Weiskotten these past few days and last week? Were you in the office? Where was Flamm? You are aware that when I reported UM in the past (as I recently did to you, CIG, and elsewhere), my UM "manager" Herna would take day(s) off to be somewhere? Something similar also occurred regarding a surgery I had at a facility up North which I later realized was strongly associated with UM SCCC's Stephen Nimer (after I interacted with people several were gone for the following week or so including the surgeon and medical records clerk). There are also other examples of this strange "coincidence" also more recently and in the past as noted in other documents. Did you, Jana, Flamm (Tampa), or anyone else from FWS ever meet any of my co-workers/managers from UM (at any location)? Has anyone else from your offices (FWS) traveled to Miami besides Flamm? There was an FWS pick-up truck driving around and stopping at my last apartment complex here (Miami) a few years ago, driven by a female with blond hair (ponytail). There was often something horrid that transpired around that time period I would complain about UM. Where was Herna these past few days/last week? At least once I believe UM's Dr. Wolfson also took off at the same time as Herna.

There was an emergency out of town last week regarding a family member of someone I know. I have yet to learn more about this but should it be concerning I will further inform you. Please further clarify my concerns as to your investigation. Again, please recall the connections -- State FWS employee Flamm is acquainted with Susan Markley, who is a UM graduate. She worked for the County, DERM, here in Miami-Dade. I volunteered there and knew her from brief conversations related to that. I met and spoke with Flamm briefly at one of these County related meetings (in Miami). (I believe the County is also involved with this h_ll.) Because of the high-level of retaliation and horror, I must also consider the fact that UM is a long-time, large CIA hub, and that the County also has had long ties to the CIA since the Castro era, at least. Also, Flamm graduated Texas A&M, another large CIA hub (the CIA should not be operating stateside per their mandate). In light of Flamm's work in the geo-spatial area (which I had no idea of initially and thought he did manatee research like I was, specifically), and the type of retaliation I have been subject to, it is not all unreasonable to be concerned for Flamm's (and/or the State's/County's) possible horrid abuse of power and their high-level "connections". One time while handing out my pocket constitutions a UM student told me that his psychology professor answered questions from CIA employees who came to him (related to people and psychology...). I won't delve into my opinions on this involvement with our educational system -- but we should all be concerned and demand it stop.

Clearly, "one hand washes the other" and I am sure the CIA is not beneath doing "favors" for organizations it is affiliated with and that do favors for it ... All the more reason they should be out of our medical and educational institutions. I had also mentioned my brief time with the ACLU and my concerns with some of those members in clear relation to horrid events that transpired. There are emails that the City of Miami Police have in that regard, that I have not sent out to you (as well as a lot of other documentation I would be glad to send you upon request). According to tax research by Sherman H Skolnick, the ACLU is a CIA front. I also elucidated in my 40 page submission the connection with my religion, Jewish, that a number of the people I am concerned about also share (and had

mentioned them then and in the email below). Flamm had asked me my religion, which I thought was kind of strange, as it can be a sensitive topic and I have never had a professor ask that. I understand the sensitivity that people have, as more hate, strife, and wars are stated to be in the name of one's beliefs or religion, than anything else. Flamm told me he was Jewish, but I do not know his thoughts on any related topic beyond that. In hindsight, full-disclosure by him was warranted, or he should not have attempted to work with me/students. As mentioned previously, those I have concerns about at the ACLU are Jewish, as well as Markley, as are many at UM (although Herna, Arias and others are not). It would appear that Flamm has a much different set of values than I do, scarily different, and that that is something I should have known (or he should have), and we should not have worked together without some further clarification, if at all. I believe in due process and that no one is above or beneath the law; it appears that a number of entities I have mentioned in my reporting, do not. This retaliation has been a travesty of the highest proportions and I am sure, as I know you probably are, that most people in the World, most Americans, most law enforcement, most intelligence employees, most students, most professors, most Jews, and most people of all other beliefs would find my concerns horrid beyond imagination, and demand justice and due process.

In terms of further associations, I reported UM's cancer data manipulations in violation of State law to the FDOH. I feel that the State did not want to take any action against UM (they said UM wasn't a State employer but I am sure that does not necessarily preclude a State response to an entity not abiding by cancer data submission State laws). The State Tumor Registry, the FCDS, Florida Cancer Data System, is located at UM's Medical Campus and is managed by UM. (UM hires and fires those people -- UM manages their own data.) UM Tumor Registry manager Herna's wife Megsys is a high-level manager at FCDS. The person killed at Bethesda Hospital East was a UM patient. You did get those hacked emails time-lining her death -- UM sent me a training on restraints after her death ... I sent you the concerns with that (I don't have patient contact and that was the first restraint training ever, in 12 years there -- I knew that the patient [Joan M.] was held illegally in restraints from that training). The Boynton police said there had been an investigation but there was nothing in the file. (There are even more horrid complaints sent to other local entities I have not yet sent to you, the AG/CIG, etc.) I had even mailed then President Obama of my concerns, including this Bethesda Hospital death, with no response. One wonders how "high up" this horror was known? Many of those I have concerns about are Jewish and Democrats (as I am). After going through this h_ll however, I will add that I think, as George Washington did, that political parties are just as divisive (even worse) as anything else and should be done away with. We all overlap in our opinions anyway and deserve a much more productive and inclusive political process.

The manatee death (Snooty) in Bradenton, near Tampa, was also very strange and concerning, it made the news. The date of that was also concerning and of course my massive research that Flamm has was manatee related. Good friend Bea in Bradenton (and her brother) also had concerning deaths, and dates of death (in the 40 pages you have). Check with the Manatee County Probate -- all kinds of very strange, documented events occurred during Bea's probate, which is still pending. It appears that someone is relishing in my running up bills and having efforts thwarted as a recipient of a small amount of money in this probate. (When Herna threatened me I went back up North for medical visits -- I wouldn't have my surgery here -- and those credit cards are still being paid off, with balances in the multiple tens of thousands of dollars.) Is Flamm discounting all the data he got and feels since he didn't

get his paper that the funds I did use were for naught (I did not use all of the grant and am still paying my much-higher school loans off)? I certainly hope that the State has used the large amount of boater collection data as well as survey data that I collected. Multiple times I have offered any reasonable solution to resolve this apparent conflict regarding the paper. Ronnie said Flamm was indeed angry ("mad") about that ... Also, my initial probate attorney (Quinlan) had links to the organization where Snoopy died; a family member of his was on that Board. The next probate attorney, Brice Zoeklein, has outright lied and acted with unbelievable impunity -- obviously being protected. Could the FBI have a role in this h_ll? Please recall UM's Arias-Morales told me pointedly that she had a relative in the FBI -- I never got the first call from them. Very strange, right? Mail of all kinds (USPS, FedEx, UPS) was "lost", "delayed", etc. in relation to this probate, Florida Bar, and other complaints (all documented). Hacking of emails/phone home/work has been very high-level and with documentation to police and UM IT. After I submitted the 40 pages with my concerns (including UM and Flamm) to the Court, horrid events occurred (as documented again in the emails previously sent and below). There are all kinds of connections here, even more than this, among entities throughout the State. I don't believe anyone, FWS or elsewhere, has looked into these things?

Apparently Flamm has been mad at me for years, since 2003 or so, and UM's Herna had threatened my life for reporting cancer data manipulations in violation of State law, saying that I had, "complained about a lot of people". There are too many concerning events, deaths, dates of deaths, high-level lethality in and outside of hospitals (not obvious murders - but at the least very concerning deaths considering the circumstances and number of them), as well as high-level hacking phone/email, purloining/opening/missing mail, UPS, FedEx, and/or their contents. These crimes were committed by someone with high-level knowledge and access as a perpetrator or with access to perpetrators, buildings, and perhaps are also killers with access to lethal substances themselves. (We know people are killed in hospitals, where murder is easily masked -- beside the obvious email time-lined Bethesda East Hospital murder of the mobile, lucid patient, Joan M., with a non-lethal illness [in retaliation after I reported UM to the Joint Commission for Herna's threat and concerning cancers in two younger employees named in my complaints], there is information online about other murders and threats of harm in medical facilities). I have some of this information also at my site ourconstitution.info.

If I did not have so much circumstantial corroboration, multiple instances and dates, links as described above (and more in prior documentation, concerns from my last email below, etc.), one could say an event or two were coincidences. However, with this much information an investigator's interest and concern should only be piqued. In light of Flamm's anger at me and his associations with events as described again above and in greater detail in the 40 pages, etc., it is only prudent that a thorough, in-depth investigation be pursued. You have the list of people I am sure have information -- I don't think it would take too much questioning for one of them to tell you the truth. People who collude and/or conspire, or have knowledge of such horrid events, even if not the perpetrators, can be found guilty as well.

This is beyond unconstitutional, and I am sure you agree that no one is above or beneath the law. I think any perpetrators with a conscience (?), and perhaps as a government worker, should confess and accept the punishment, just as a less powerful person would have to do. If they don't have a conscience, or think the illegal and unethical actions they are doing are somehow justified, that is even

**HUMANITY'S ABYSS - EXTRAJUDICIAL TERROR COLLUSION, CONSPIRACY, KILLINGS, COVER-UP
EDUCATION-MEDICAL-MILITARY INDUSTRIAL HUBRIS OF MONOLITHIC RELIGION**

scarier ... Government employees are held to a higher standard, and should be. People who work with students should be held to a very high standard as well. One would think all university employees would be held to a higher standard as well.

These are some of my valid, extremely serious concerns that I hope FWS OIG will look into.

Thank you,

Judith Futerfas

Subject: Closure of Complaint

Good morning,

Thank you for your patience while the Florida Fish and Wildlife Conservation Commission (FWC) Office of Inspector General (OIG) reviewed the information you provided to the Office of the Chief Inspector General (CIG) on February 6, 2019, and directly to this office through February 28, 2019. Pursuant to section 20.055(7)(b), Florida Statutes, the OIG will “receive and consider the complaints...and conduct, supervise, or coordinate such inquiries, investigations, or reviews as the inspector general deems appropriate.”

After thorough review of all information you provided, it has been determined no new or additional information regarding any FWC employees that would warrant further investigative action by OIG has been provided, therefore, OIG complaint number **2019-COM-0030** is considered **closed** at this time. This office’s jurisdiction is limited to allegations involving FWC employees or independent contractors. FWC OIG has previously addressed your concerns with Richard Flamm of FWC, however, we regretfully are not able to assist you with the new information you provided involving the University of Miami, Bethesda Hospital East, or Palm Beach County. These concerns will be better addressed with your local law enforcement.

Feel free to contact OIG at inspector.general@myfwc.com with any questions regarding the closure of your complaint.

Thank you,

Office of Inspector General
620 South Meridian Street
Tallahassee, FL 32399-1600

Subject: Jana Weiskotten - Phone conversation

CAUTION:This email originated from outside of FWC. Whether you know the sender or not, do not click links or open attachments you were not expecting.

Dear Ms. Weiskotten,

Thank you for reaching out yesterday. I guess we spoke for 15-20 minutes about 3pm or so. You said Mr. Troelstrup was busy and so you were returning my phone call to him. I am also sending this to the CIG as I have included relatively new information that I had not yet forwarded to anyone beyond the initial recipient communications.

I was just following up on my documents that were forwarded to Mr. Troelstrup by the State CIG. I explained a very little bit about the situation to you. Since I last communicated with Mr. Troelstrup and Mr. (Ronnie) Austin, a couple of years ago now I guess, there has been more information to report. It is all extremely concerning, including high-level hacking (my home/work, family/friends - phone/email), threats, and suspicious deaths. For a number of reasons it would seem there is involvement, (at least knowledge of), by Dr. Richard Flamm, from your Tampa offices, as well as by Stuart Herna and Susanna Arias Morales, from the University of Miami Tumor Registry (UM), my former employer (among many others I have listed). I have reason to believe Miami-Dade Mayor Carlos Gimenez is involved. (Mr. Austin had said to me exactly or similar to: "Don't you think [Flamm] was mad because you didn't get him his paper?" This begs the obvious questions including what does "mad" mean, and if we are also then justified to throw the Constitution and laws out the window, and whether we then are allowed to continue to employ such people in government, much less send them to jail. See ** below.) It is all in my documentation, along with concerning dates of deaths, suspicious circumstances, etc. Of course, no one is above the law, nor beneath it. I am requesting an investigation and due process according to the Constitution. That wording may sound strange to you, but it is quite apparent to me that some people (dangerously) have their own version of the law, from any number of professions. I seem to be having difficulty finding any oversight organization to cross-check names/emails/phone calls among the list of people that I enclosed with the CIG documents, much less question anyone directly. In regards to one death, a UM patient at Bethesda Hospital East, besides a note from the initial responding Boynton Beach Police Officer Jeanniton, no one from the hospital to the Mayor, City Attorney, and including Palm Beach County Attorney responded in regards to that very concerning death. They would not even tell me the patient's nurse Amy's last name, whom I am quite sure was involved. (Much more on this in my emailed documents.) This is only one of the very concerning deaths no one has investigated. The people involved in/with knowledge of this horror are listed in my emailed notes (although that is still not an inclusive list of everyone in this regard). The UM supervisor, Susanna Arias Morales, pointedly told me a few years ago that she had a relative in the FBI. I never received the first call from them. UM retaliatorily fired me 6.12.17 after I responded to a good evaluation and an approximately \$10,000 raise. In my response I reported Herna's vile threat to my life because I had, "Complained about a lot of people." I reported cancer data manipulations in violation of State law and other concerns several times

over my 12 years there. This firing was illegal but my complaint directly and solely implicated Herna, unlike all of the others. I am still trying to secure legal counsel in this regard. No one at UM asked me about the threat and I am sure Herna is still there. At another point Herna had threatened me on the phone that, "We don't mention peoples names here".

**This is from my email to Governor Scott, which FWS OIG has. I had also been protesting UM also at their crossover bridge on US 1. These horrid events listed occurred subsequent to my detailed 40 page report submissions in February 2018 to the Manatee County Court (about concerns briefly mentioned in this email and others [FWS OIG also has the 40 pp]):

Bombs in Texas 3/2, 3/12 (x2), 3/18 - 2 died
Sightseeing helicopter down in NY 3/11 - 4 died
Naval jet down in Key West 3/14 - 2 died
Military helicopter down in Iraq 3/15 - 7 died
Fire Cresson, Texas 3/15 - unk deceased
Walkover Bridge collapse FIU 3/15 - 6 died

Per our conversation yesterday, did you check what correspondence you thought I might have been sent? There was a concerning phone call a few hours after we spoke yesterday mentioning the name of (Judge) Juan Gonzalez whom I know, which has been reported to authorities (besides here). This is not unlike the other retaliatory threats and forebodings regarding people I know, that have happened for the past several years after I reported something, or was attempting to report. I do believe the State, the University of Miami, and Miami-Dade County are involved in this disgraceful and illegal collusion and conspiracy, for reasons I describe in my emails.

See below for one of the complaints about the call last evening to my parent's home and a prior strange interaction with ATT, referring to me as "Judas". A third complaint, about a long-delayed Hadassah "life-time" membership and another concerning death is the third description I am sending here. I am Jewish, UM has a lot of Jews, and Flamm had told me he was Jewish. How dangerous it is to make this into a "religious conflict", if this is indeed what is going on? Even as Jews, we have at least the same requirement for ethical behavior as the Constitution mandates, including due process. Actually, as Jews, and how I was raised, we always feel we should go above and beyond the status-quo, be beyond reproach, and both the US Constitution, and Jewish and American laws and ethics should be held in the highest esteem and followed diligently. There are all kinds of Jews, including good and bad, like any other group. In America there are all religions and I have friends who are good people of all faiths, not favoring one over the other. Why should anyone who aspires to peace and the humane America I believe our Founders envisioned have such strong partiality towards one religion, that results in such h_II? Unfortunately, there are radical branches of Judaism which are disavowed by many Jews as well as the ADL. These actions I have described certainly fit that definition of radical. It would be important to know if Flamm, or his Miami cohort at the time, MDC DERM's Susan Markley, or some from UM, are affiliated with the extreme organization JDL, more recently in the news again as Kahanists (after founder and extremely radical Jew Meir Kahane, who was assassinated in 1990). Very recently, in Israel, "The extremist Otzma Yehudit is the spiritual successor to Kahane's Kach party, which was barred from the Knesset under a Basic Law outlawing incitement to violence and later banned entirely in Israel." <https://www.timesofisrael.com/bennett-says-otzma-yehudit-extremists-unfit-to-be-in-knesset/>

I am always glad to answer any further questions from you or the staff there and hope that arrests are imminent. As I mentioned again yesterday, and again now, Flamm got his multitudes of research and data I completed (2003!!). I am still paying off my school loans, which in all were much more than the amount of the grant (which I did not use in its entirety). I am receptive, as previously stated multiple times, to any further resolution regarding his brief paper, financial, etc. I guess this was about him, more than my education? My professors and I reached out to Flamm in 2011 and he did decline a paper stating that there were two boater speed zones, which there had always been... I have communicated with the FDOE (in my emails to FWS OIG) that all people working with students need to be vetted, especially if outside of the teaching institution. What has gone on here is a disgrace to America and all that we Americans, and in fact the vast majority of Jews, stand for. I do wish I had never met Flamm -- I hardly know him any better now -- really not at all. He seemingly has very little comprehension of being a thoughtful, insightful mentor or role model to anyone, much less to a student. Had full disclosure been forthcoming on his part initially, I would never have agreed to help him. It would appear the ends justify the means to him (and others I have mentioned) in certain situations of the type I have detailed -- a philosophy directly contrary to the Constitution, Jewish ethics and law, and very dangerous for one who has power over others, in America, and regardless of one's religion. As I have stated before, as a Florida taxpayer, this type of personality appears best suited for solo work, certainly not as a government employee, receiving my money, and entrusted to uphold our laws.

Thank you again. Judith Futerfas

The letter I sent to ATT early this am about the concerning call from last night:

Judith Futerfas
Thu 2/28/2019 5:04 AM

To Whom it May Concern,
I have sent you several situations of extreme concern, also under the email [xxx](#). Below is a draft of a situation from yesterday involving a complaint about a high-level FWS worker in Tampa. I spoke with Ms. Weiskotten, at the FWS OIG, from my cell [xxx](#).

Later on yesterday, about 5:56pm, a call came into my parent's home (ATT line [xxx](#)) from 302-261-5696. This caller, Angie Niccum (sp), asked for me and left a message for me to call her at 866-517-3093. She said it was regarding Juan Gonzalez, reference 274271.

I called them back from my parent's line at about 7 or 7:30pm? When I was finally transferred to someone calling herself Angie Niccum (sp), she said that that reference number did not exist and that she had no way to know what she had called me about. This despite her having my name and the phone number she had called me at initially.

For reasons I detail in the letter below (yellow highlights), the circumstances are concerning for much more than a harassing phone call.

Thank you,

Judith Futerfas

(An earlier draft of the letter above, to you/FWS OIG, was included with the third paragraph highlighted.)

This was another complaint emailed to ATT from December 2019:

Judith Futerfas <xxx>
Fri 12/28/2018 11:44 AM

Hi -- Wondering who addressed the emails (below) to me from ATT? They used my other email which clearly has my name as Judy. My name as signed in my initial email to them is Judy (or Judith) ... ATT usually does not make these types of errors and I would appreciate this being looked into and corrected. Thank you. *Judy* Judith Futerfas

"WE STAND ON THE SIDE OF JUSTICE AND ACCOUNTABILITY"

FIU President Rosenberg

May 30, 2020 at 1:00pm (Ed: Link below - news.fiu.edu)

Dear FIU family,

Like you, I watch the dreadful images of George Floyd's death in Minneapolis, the shooting of Ahmaud Arbery in Glynn County, Georgia, and despair at the death of Breonna Taylor in Louisville, and others before them who have senselessly died.

I see and feel the outrage that has poured into the streets of American cities. And I wonder why we can't do better as a nation.

We must always stand on the side of justice and accountability as we mourn together for the victims of injustice.

At FIU we have a strong Black Student Union (BSU) and I appreciate the thoughtfulness I see in their leadership. I want to assure BSU and all students, faculty and staff at FIU that we are here for them astride a value system that promotes hope and opportunity and rejects violence and hate. I also know that the vast majority of law enforcement officers respect and care for the communities they serve. Chief Alexander Casas and our entire FIU Police Department will continue to uphold their duties in protecting and serving our FIU community with a commitment to promote justice and equality for all.

I call on all Panthers to take personal responsibility for how we react to the events of the past few days and look for small and big ways to make a difference, to lend a hand, to bring light.

Dr. Martin Luther King, Jr. said it best: "In spite of temporary victories, violence never brings permanent peace." But now, more than ever, we need to dedicate ourselves to permanent victories — with the hope that messages such as this, at some point soon, no longer are necessary.

Sincerely,

Mark B. Rosenberg

Dear Ms. xxx,

We just spoke - I called you. Here is the Disqus response that is not showing up, along with the link to President Rosenberg's letter regarding Mr. Floyd's murder (that I had responded to).

His murder, and my concerns, are horrid, and I have tried to seek justice for a number of years. I would like to know who is responsible for deciding if this response will be posted or not.

Please see my site (ourconstitution.info) and linked book (no charge). Enclosed is the 7-page letter to FIU Alumni Association, Mr. Wiles. I sent it to President Rosenberg some weeks ago - other letters also a couple of years back.

Please see the second email for a brief overview. Thank you.

It was tragic what happened to Mr. Floyd and others of color murdered before him, and we hope change finally comes - fairness, justice, and accountability for all. Unfortunately, I have reported horrid concerns, as an FIU alumna, regarding these same issues, victims of all colors, on an equal or perhaps even scarier scale, to a number of FIU staff. About a week ago I sent another letter (email) to President Rosenberg. I am waiting to hear back, from even my initial correspondence of 2018.

See my documentation at ourconstitution.info. We must reign in the rise of the National Security State and high-level lethality in and out of medical facilities, yet all those who work with students, and protect our students, patients, and everyone. Demand an investigation into these vile and unconstitutional breeches of decency and humanity. See my contact info at my site. It is also well past time we heed Eisenhower's and Truman's warnings, and implement justice and accountability in these regards.

CHABAD – LOCAL RABBI AND NATIONAL MAY-JUNE 2020

Thank you. I did mention the severity of my concerns in my initial email (below). I would be glad not to have suffered the knowledge of such evil; in many respects it is also just as bad and worse than the example I presented to you.

Again, if you would like to know more, I will send the book and/or cover. If not, I understand. Regards to you wife and family, stay safe.

Judy

Yes, we would report a sexual abuser to the police. Unfortunately this has been an issue in every community. In the event where you can prevent harm to an individual and especially to a larger community it would be permitted. But to apply this to every situation, one needs to follow guidance. Interesting scenarios are when you have negative information about a potential shidduch, or a prospect your looking to hire. The 'Chofetz Chaim' is an authoritative book on this topic.

It's not a Chabad issue, it's a Torah issue.

Thank you. This (link) is concerning to me in that it reminds me of the horror a Jewish man I know had to go through. He was sexually abused as a child (by a Jewish teacher). Suffice it to say, he is quite upset that Jewish perpetrators are still enabled to continue on, in another Shul, state, country, etc. I imagine you are aware of this horrid problem. There are websites and many news articles and testimonials in these regards. Would you report a sexual abuser to the police? Is your response specific to you or do you have to follow the Chabad rules in that regards?

Appreciate your further thoughts. *Judy*

What about if the truth is more important to be known than kept secret/silent? (**Prevents possible harm to others, and lesser concerns: is against society's and Jewish law and many people have no idea [and would likely say they wish they knew, the practices must end, they choose not to deal with this company, etc. based on knowing the full truth], etc.). Thanks, Judy

Hi Judy, I hope you're well. I'm sorry for delay in response. I flagged your email for later review but must have forgotten to get back to it.

I would prefer not to read the entire letter as I don't want to be engaging in 'Lashon hara'. However, I would be happy to assist you if you have any questions about a specific area in Judaism that might offer guidance.

I hope this gets resolved in the best possible way.

Best regards,

Subject: Short book

Hi Rabbi xxx,

I hope you and yours are still well and safe, and remain so as we go through this most horrid of times.

I have a 7-page book that is actually a letter I wrote to FIU some months back. It details some quite un-American and I think un-Jewish behavior on the part of a number of people, several of whom are Jews. I do not think we hold our own accountable for their actions, which are sometimes quite horrid, including highly unethical and illegal, surely by US law and it seems by Jewish law and ethics as well. You will also see my concerns for those pushing Judaism as a type of monolithic religion, seemingly better than others, and that ends justify the means in these regards. The details are quite frightening and appalling, and I think Rabbis and all of us must address such behavior however we can. I think these people should be in prison - however, they are being protected.

If you don't mind, I would like your impression of this book, cover and contents. There may be another page or two to go, as I have written FIU higher-level staff in efforts to have them send this man, Richard Flamm, back grant money he solicited. They have not responded thus far. Actually, I will go ahead and include my short letter to them at the beginning.

If this is something you might be interested in taking a look at, please let me know. I will attach it and please read at your convenience.

If not - that is ok also. It is a somewhat unique request, and not pleasant or easy to read about.

Thanks again - regards to your wife. Judy

Subject: Re: Chabad.org: Ask the Rabbi { Ref. No. xxx }

Thank you again xxx. I have reached out to Ms. xxx via email. So, let's see. I'll let you know if I hear from her. Chabad is actually a very good voice because of the international outreach ... so if you don't hear back within the week - I am still looking for assistance! Maybe Chabad will be interested in these concerns as far as outreach at a later time...

This cannot continue and no one is above the law. It is a dangerous hubris, and a Shonda upon good (and all) Jews when something as horrid as this is perpetrated. Just as we want others to report on bad acts (police, other religions, doctors, etc.), we must demand no less of our own. These Jews are privileged to have the important positions and authority (including over life and death) they do, but have not respected or honored the responsibility they were given. They must be held accountable - due process of course. *Again, thanks ... Judy*

~~~~~

:: On Monday, June 8, 2020 you responded:

~~~~~

Thank you xxx. I viewed some of the pages and a video from your link, and my complaints are at least as bad as the worst listed on your site. I have personal, somewhat different experiences with hubris and frankly, to put it kindly, behavior counter what is considered humane and ethical. My concerns involve Jews and non-Jews - and involve a partly/mostly Jewish run powerful, wealthy, private university and med school I used to work at. My complaints have been many and over much time. They are being covered-up.

Some Jews outside of this work environment also have (and had) a negative attitude towards me -- I believe pressured by this university as I refused to be silent regarding such behavior, and as some are in the medical field, perhaps in fear for their job. These perpetrators seem to feel they are above the law -- very arrogant. They actually are above the law now due to lack of investigation. Perhaps if you think of the worst horror I could be referring to, you might be correct.

What are your thoughts? Would you like to know more? Would you like me to write something up for your publication?

Appreciate your time. Judy

Hi Judith,
Thank you very much for your feedback.

Generally speaking I have found that in the last couple of years, many in the community have been more

open about tackling painful issues such as abuse and addiction. I have seen an increase in public talks and discourses and a very positive mood in the right direction.

Here on Chabad.org we do touch upon sensitive and important subjects, abuse included.

Take a look at this link for example:

<https://nam04.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.chabad.org%2F381392&data=02%7C01%7C%7Cedd2a10abfba40610c1608d80e24177b%7C84df9e7fe9f640afb435aaaaaaaaaa%7C1%7C0%7C637274895454106467&sdata=i53IBbYLX2CnuToRfRLcTjqYpJJG7A6pnKox5SiFbPQ%3D&reserved=0>

=====

That was an important tribute regarding George Floyd. Thank you. Such horrid, systemic problems prejudice and our criminal justice system are.

I know Jews have a lot of concerns within our community, but I rarely read about any of them. What about sexual abuse of children, spousal abuse, and worse? I know a man who was molested by his male Jewish teacher and he is still upset that the perpetrators just move away and continue on elsewhere. Even victims are victimized for reporting?

Do you deal with these types of issues? The good is easy, the others far more important. Do you agree? I hate to think Jews try to cover for our bad actors, but it certainly seems so? Thank you.

Thank you again xxx. Well, the whole thing is unfortunate. However, if I am requesting my money back I guess I should offer the pin back. I will write a bit more here, if you wish to read it ... I have learned a lot about the state of our nation these past few years. It is actually stuff we should all realize.

As you may know, Eisenhower warned about the rise of the military-industrial complex and Truman regretted the formation of the CIA. It seems both felt these entities were necessary at the time -- and it is unfortunate that they did not have greater checks/balances, and a date of sunset or cessation, either actual or upon end of the primary conflict. It is clear now anyway, that even Americans, of any religion, who are operating without verified boundaries, can be as disgraceful, illegal, and immoral, as anyone. Truman warned that the CIA stirs up trouble to justify their existence. These concerns that both men had are things I have seen -- destructive, hateful actions for the sake of hate (and clearly high-level).

Someone (or more than one person) is getting paid (a lot) by us, the taxpayers, to act outside the bounds of the Constitution, and any semblance of decency. I am sure that I am not the only one (personally) subject to this, for any reason. Whistleblowers are threatened and harassed, to the highest levels of government, all the time. On a different level, but same sort of abuse -- the political parties just tear each other apart, wasting time, money, and productivity. How much progress did this recent three year long political battle and Federal investigation cost us all? Both sides do it, and there is also a lot of money that gets paid out while keeping "stuff stirred up". This will go on in perpetuity, because of the money and power, unless a concerted effort is made to stop it.

I think we should do away with political parties. Our system may be one of the roots of our problems. It allows for no (enforced) oversight of the Intel Apparatus, for one, and candidate competition is limited to only those with money. We should vote on people not by parties, but individually, those who get so many names on a petition, limited campaign costs with aid for those needing it to the max allowed, and no lobbying ... Maybe a numerical system for each candidate should be used, and the total score based upon their views. We all can choose the one with a score closest to our views... Justa thought. We all overlap in opinions anyway, and our current duopoly, confining us to this or that (party), does us all a disservice. That type of accountability and process, devoid of money influencers, will filter down and enable a more humane and just society... Moreover, let some of these industries like tobacco and alcohol pay for their own (healthcare) costs to society -- then our individual healthcare costs would be much more manageable. Of course, those in this money cycle want it status-quo and would not agree with my attitude of more fairness and participation.

I assure you the retaliation against me does also have a political component, as wide a reach and costly as the harassment has been. Although, I take whatever I agree with from all sides, regardless of party. Can you imagine the amount of time and effort (and money) that has been spent retaliating against me? Me??? Someone has (I am sure many people have) a job to "stir

up trouble" or worse, follow orders, whatever it is, without question, and this is truly a disgrace for Country. Could even be the FBI -- they need an overhaul -- never got back to me with the first phone call ... My UM supervisor pointedly told me that her relative was an FBI agent ... How's that for ethics? It is a shame, because it is not what we are supposed to be, it is not humane, nor decent, and is at the end of the day, counterproductive. Because Hadassah choose not to do the least bit of investigating-- or maybe they do know what is going on and choose to do nothing -- they just lost a concerned, hard-working member.

I don't think we should keep our heads in the sand -- these days there is too much at stake. The Intel Apparatus needs review, reform, and valid, reliable, and verifiable oversight. Who knows how far they have morphed since Eisenhower and Truman. The powerful could and will take on anyone next, if they don't agree with a person, or UM thinks a person (me) "complains too much" and possibly asks their buddies based at UM (CIA) to "help out", asks someone's FBI relative, or whatever ... Maybe we should take a cue from Israel, and how much more healthy the military and citizenry interaction is. Here the military and civilians are almost on two different planets -- very sad -- that is also an important predictor of a functioning, productive society. I think that military model also affects the relationship of the entire Intel App with everyone else. Even the prison system in Israel is much better (well, Florida is a disgrace) ... These would be very important steps to look at, I would say necessary changes as well.

Thank you again xxx. I do have a website, ourconstitution.info, should like to read more about this type of thing. I started it about 3 years ago because of what I was being subject to by UM (and whomever), and my other serious concerns. We all need to demand change before it is too late to save any semblance of our decency and humanity. *Kindest regards, Judy*

Judy, we are refunding the \$214 you used to purchase life membership, and you should receive a check in the next few weeks. Yes, please return the pin to my attention. That is very thoughtful of you.

Subject: Please refund membership

Dear xxx,

I am sorry but I must request that my lifetime membership fee be refunded. That was \$214.00 paid on 1.3.18. Please forward this email to the proper person to do so. I would be glad to return my pin. I have extremely serious reasons for making this request. As you know, I have had some very concerning matters that I conveyed to you. It appears that these concerns were not even forwarded to Hadassah security and were not further investigated (if this is not correct please let me know). My subsequent information to you conveyed only a small percentage of what I have been subjected to. I do not expect Hadassah to understand or be aware of all of these concerns, but I have them all documented and know very well what the pattern of brutal retaliation and harassment has been, and did mention a bit about that in emails to you. I cannot say that the issue with the Hadassah mailing was related, but I KNOW that it certainly fits the pattern, including horrid events preceding and afterwards, and was also quite strange. As mentioned, I have had numerous problems with mail of significance (also mentioned this to you previously), including lost, opened, delayed, etc., including with FedEx, UPS, and USPS. This has included not only mail to/from Hadassah, but the Florida Bar, the Manatee County Probate Court, attorneys, etc. If my concerns are correct, there is horrid, unethical, and illegal activity occurring, including by Jews (and non-Jews), and in this instance, involving someone at Hadassah and using your mail facilities.

Thank you for all of your help regarding my concerns. I imagine that this decision not to investigate was from above you. No organization should overlook problems within their own group. Choosing not to address these issues does not make them go away. My concerns are of a particularly egregious nature, and although what Hadassah does advocate for is important, those matters do not at all rise to the level of the concerns I have. I also think that all organizations should "walk the walk" within their own organization, prior to portraying legitimacy in regards to taking stands on related issues, outside of their organization. Today I received an email from Hadassah regarding hate crimes. It read, in part, "... Although Florida already has a hate crime law, it does not protect all Floridians. Senate Bill 940 ([SB 940](#)) would make the hate crime law comprehensive by fixing critical gaps in the statute..." What I have reported against me are also hate crimes.

As another very important mention along these lines, I recently became aware of horrid abuse of children within the Orthodoxy. Unbelievably, many, probably most of these abusers just move from one Shul to another, with no system to monitor them. It appears they are rarely criminally charged, and in fact are often protected by the local religious and/or political system. Even Israel lets them enter and live there without repercussions. Israel, most horribly, has a very severe problem in these regards. In the US, retaliation for those who complain or report has been vicious and includes physical assaults and community shunning. I can send you links in these

regards if requested. Last month xxx asked me to be Chair of the Education Committee and I presented these abuse concerns, after discussion with her, at our regional meeting. She and I went to the meeting together. I asked Hadassah members at the meeting and in subsequent emails to advocate for this cause, in whatever manner they wanted to, and I would be glad to help. However, this very serious advocacy topic was declined. Understandably, many of the members present at that Hadassah meeting were devastated to know about this abuse. A holocaust survivor at the meeting was in shock, and asked me, "Why?". She said that this abuse was worse [Ed: "was worse"] ...

We did have another regional meeting this past Sunday. However, I received not one call or email from xxx in regards to that meeting. This is curious as well, and I wonder if she knows what's going on in regards to my concerns (as mentioned in my prior email to you)? Has she been asked by Hadassah? Clearly, if my concerns in regards to this Hadassah mailing are an actuality, I would think Hadassah would want to get to the bottom of this. It seems that any member involved in such hate, or just knowing about such and not saying anything, should leave the organization (if not suffer further legal consequences).

Hadassah does a lot of good, but I cannot, in good conscious, and with my experience as mentioned above with similar events, overlook this incident and Hadassah's apparent failure to do the slightest investigating. If xxx has any information along these lines, I would appreciate knowing that. We do have bad Jews, as there are bad and good in all groups. Jews commit hate crimes, and abuse, and selective acknowledgement of these perpetrators is to the detriment of everyone. Even the ADL does not condone radicalism from anyone, even other Jews [Ed: per one of their staff].

If anyone has questions I would be glad to answer them and send any other documentation. My mailing address is below. I am open to any solution, but thus far I have been shunned and ignored. This is something we see in other religions, not something mainstream, humanitarian Jewish organizations should partake of.

Again, thank you xxx. *Judy*

Subject: Re: Hadassah Security, pics of mailing, retaliation details Fw: Hadassah Life Membership Packet

Can you find out what happened? For other reasons that I mentioned to you and in even more detail to security, I am sure this situation is more than a normal "resend". You have my address correct and the package would not have come back. Even if it had, it is not reasonable (to me) to send out an entire new package to the same address -- it did not come back. I have had that address for 50 years. This is not a unique situation and there is someone (or more) deliberately hindering my proper mail delivery which is a Federal crime. It has happened with regular mail, UPS, and FedEx as well (lost, delayed, opened). *Someone is involved at your facility.* I can send you much background information if requested.

Briefly, as I had mentioned to you (and to security in more detail), I was a fired Whistleblower from the University of Miami (UM) where my life had been threatened by my boss for complaining "about a lot of people". As a Senior Tumor Registrar, I reported cancer data manipulations in violation of State law several times as well as other concerns. (The State feigned interest but in the end wouldn't audit or take any other action against UM. Cancer is big business and there is a lot of money going to the State overseeing facility [FCDS] which UM manages [overseeing their own data is not ethical, but who cares??].) I was fired in 2017 after 12 years, within 2 weeks of reporting the threat in my evaluation response (to a good evaluation and approximately \$10,000 raise). My boss had also said to me at some point, close to or exactly, "We don't mention people's names here". There is no place in a university, or *reputable* institution for intimidation -- but that's how UM operates and my boss is likely still working there though I reported him to overseeing authorities numerous times. I have continued to report UM and the State of Florida (I believe they are also involved in this horror), most recently in regards to a legal matter where there are concerning deaths (one in a medical facility and one at a private home, different counties and/or States). That most recent reporting (to the Manatee County Court) was within weeks (in October 2018) of receiving this late Hadassah membership packet. Shortly after this recent Court reporting in October, but prior to receiving this "life-time" member packet with pin in late November, someone (else) deceased under concerning circumstances (this was in a hospital). Jews (and non-Jews) are involved with this h_ll. Unfortunately, UM Medical (UM is known as a "Jewish" institution) thinks they're G-d and no one should say a negative word about them. As an entity, they are very scary, think they are above the law, and a disgrace to all Jews. (There are many wonderful doctors and staff at UM, Jews and non-Jews, of course.) Just a little background. I have 100's of pages (including more concerning deaths) if you request to see more. Many of these illegally intercepted mailings occurred in association with the timing of my reporting UM/the State of Florida to an overseeing entity including the Court (as in this Hadassah mailing complaint), the Florida Bar, DOJ, and other entities. A supervisor at UM (who I had also reported) pointedly told me that she has a relative in the FBI -- I never received the first call from them. Pretty scary, right? Beyond unconstitutional. *Maybe Hadassah should specifically advocate for Jews acting ethically and within the law, both American and Jewish.* Would you please suggest that??? xxx of my local here in Miami, xxx, may know something about the instigators behind my complaints, but would not willingly tell me (if she did know). xxx is xxx for another medical entity and still working. It is strong-arm and intimidation regarding Jews as perpetrators and

**HUMANITY'S ABYSS - EXTRAJUDICIAL TERROR COLLUSION, CONSPIRACY, KILLINGS, COVER-UP
EDUCATION-MEDICAL-MILITARY INDUSTRIAL HUBRIS OF MONOLITHIC RELIGION**

is beyond barbaric and disgraceful, especially for "legitimate" institutions. As a Jew, it is horrid and antithetical to the role models and leaders we are raised to be and should all be. Glad to provide more information upon request.

Thank you again xxx, *Judy*

I see what you mean. I also noticed (thank you for the photos) that the label is not one that we use when sending out the packets but it is one we use when creating individual labels here. I suspect that your packet was returned to us for some reason and that we sent it out again in November. I realize that that is a several months after January, but we may not have gotten the returned packet for a couple of months and returned packets can be put aside depending on the workload. I'm not saying that is what happened, just that it is one possibility, given that the stamp says November and the label is from our label machine.

Hi xxx,

I did speak with Hadassah security's xxx 212-xxx-xxxx on or about Wed., Jan 23, 2019 for 15-20 min re: concern for membership lifetime packet that arrived "late" -- in Nov 2018 although was sent in Jan 2018. The envelope had been taped in back, and the date stamp was for Nov 2018.

Please find att some pics of that packet. You will see the stamp as I explained and back tape. Please find out who was involved with mailing this? Please let me know.

Thank you again, *Judy*

Thank you again xxx. Please note my updated email ...

As you know, I only recently received my Lifetime packet and pin although I was in the system since January 2018 and the packet went out 1.29.18. The stamp on the packet is dated 11.28.2018, and you stated that you do not use the "tape-on" type of stamp, which is what is on my packet, in red type, for \$2.05. (Underneath it is the red type mailing stamp on the actual mailer, same date, for .47.) You had also said that all my information was on the roster since I signed up? You said I was put in xxx initially but then moved to the xxx chapter? How do the leaders in Miami get my roster information? How often is it updated?

Thank you so much again, *Judy*

Good afternoon, Judy

I confirmed with our mailroom that they never use brown tape on the life membership packets, so that was added at another time by another party. I can also confirm that you enrolled on January 3, 2018 and that the membership was posted on January 10, 2018. The packet was sent from our mailroom on January 29, 2018 and should have arrived at your address in early February.

Let me know if you need additional information.

Subject: Fw: Health Reporter Re: Documentation Re: Judge Economou 1/2 Fw: 1/2 xxx Data manipulations in Florida? Really?

Hi Reporter 1,

Did [Reporter 2] say [they were] interested in reporting/investigating this? I have not heard back from xxx - and frankly, this is much bigger than Florida's Covid data debacle. I think it is bigger than anything you, or anyone is covering - of course it is - sanctioned killers and killings involving our universities? At least investigations should be demanded, but I think the documentation in my book, murder of Joan M., Doctor Cosmides, info to Judge Economou including concerning cancers in two younger black co-workers, other suspicious deaths, threats including against me, and more, should leave little doubt some kind of horror is going on. Who knows how often in the past and where else right now - just no one has been putting things together to even realize this - who would want to think it??? You see the investigating I have done... (Well, people do acknowledge the many deaths of those people who would hinder the Clintons -- These are largely Dems doing this, or paid (ex) military by Dem interests, and I think some of the same folks, or in the same "network" as what I've reported - I hope this is not why no one wants to investigate? Are the Dems this much above the law? I think no one is ...)

The Jews I have dealt with (xxx?) only want to cover-up or are scared - even journalists (Jews and non-Jews). I know Jews are being intimidated regarding their dealings with me (see letter to/from Hadassah in my book as one example, ATT emails [in book] calling me "Judas" - can you believe it???. THIS IS REAL.

Is this the society you want to live in? Should these people be unaccountable, and above the law? This hell can affect any of us - even though we do have a Constitution - which is being viciously and vilely violated. I guess you know "our" hands are as dirty, or more-so, than anyone's ...

<http://www.abovetopsecret.com/forum/thread59987/pg1#pid626088>

Well, if you are interested -- I don't think [Reporter 2] is. As a reporter, I think someone who knew about this and wanted to help investigate and stop this horror would have immediately contacted me. I have emailed and called her. I hope [Reporter 2 is] ok ...

Thanks again - *Judy*

From: Judith Futerfas

Sent: Wednesday, May 20, 2020 12:11 AM

To: Reporter 1 (and several other reporters)

Subject: 1/2 xxx Data manipulations in Florida? Really?

Dear xxx,

... I think you would be quite interested to see my website ourconstitution.info. I am a fired whistleblower from the University of Miami (UM), Medical Campus. This school is likely still the 2nd largest CIA hub. Among other things, I was a Tumor Registrar who reported cancer data manipulations in violation of State

law. I was viley threatened (seeding of cancer at a recent minor surgery at another facility) for "complaining about a lot of people". I reported this threat in response to a good evaluation, after 12 years, and was fired within 2 weeks. (I am still followed for this threat.) Please see also the attached letter to FIU (a related issue). I have subsequently also emailed the heads of Research with this letter requesting they send Richard Flamm's grant money back to those offices. I have not heard back. (I am forwarding copy of that email next.)

Please see my linked book (no charge) on my Home page. I call it the medical-military industrial. People are being killed with what I term high-level lethality -- it appears a natural death, or unknown, both in and out of hospitals. In hospital different drugs will do it - usually a heart attack for older folks. They are using a high-level biologic to kill those not in hospital, which they did to doctor James Cosmides, a dermatologist. He went out to eat dinner (everyone knew) for his 30th wedding anniversary, went to sleep in the evening and woke up briefly in the am to say he wasn't feeling well, never to rise again. He was extremely healthy. A partial autopsy showed nothing. He did NOT share patients or have privileges with UM, and was older and very established and had many, many patients of his own. The group that took over his practice IS affiliated with UM.

They are seeding cancer (radioisotopes, etc.) in food and drink (colon, bladder) and I believe that is what happened to Dr. Torres-Salichs, a young breast surgeon who unexpectedly died of bladder cancer. He would NOT agree to see patients at UM. The group that took over his practice DOES have an agreement to see patients at UM. See also the murder of Joan M in my book. See also the links at my Home page regarding the Canadian generic drug company owners (now dead) who had planned to build their first US factory in Miramar. They are also falsifying tumor markers and other labs (did to me) so diagnosis or spread is not detected in time to save people (this has happened to others) -- more money to treat as well as a way to kill (for med student cadavers, retaliation, body parts, costs too much to keep alive, etc.).

It's all about power (control) and money. These people can buy whatever they want, know people from Intel, the military, etc. (who obviously don't care about the law) and rogue FBI as well. Politicians are involved here and look the other way -- Rubio (gets a lot of money from Norman Braman, a wealthy UM benefactor), Scott, Gimenez, and now DeSantis is doing nothing to help either. It is horrid.

Please email any further questions in these regards.

Thanks for your important work. *Judy*

DUANE WILES - FLORIDA INTERNATIONAL UNIVERSITY - 8.20.19

Dear Mr. Wiles,

I had an unfortunate experience while at FIU (MS Environmental Sciences, 2003), with an outside advisor who secured some grant money. He introduced himself at a manatee related meeting at MDC DERM in or about the year 2000. I agreed then, with little information, to help with his research. I met with him a few times after that for data collection of this boater information. This person (Richard Flamm, FWS, Tampa) should have been vetted prior to working with students. I did get him all his data (over 12,000 boat entries and related data) but not his brief paper; I felt my senior advisor Joel Heinen had some problem with him. Regardless if that is correct or not, I wish I had never met Flamm. I have offered any reasonable compensation in several letters in those regards, but have heard nothing back. Joel Heinen, Hugh Gladwin (FIU IPOR Director) and I had reached out to Flamm about 2011 and Flamm said he was not interested in any further write-up because the study area had two manatee speed zones, not one. (Flamm had known about the site since the data collection began.) Flamm also declined any other write-up saying the data was too old.

It would appear, in hindsight, that Flamm is more nefarious than the friendly persona he projects. He has apparently been angry about this 'paper' since 2003, and I believe people have been killed, including a family friend in nearby Bradenton and her brother in South Carolina (discussed more in the 40-pages referenced below, that the FIU Student Ombudsman office also has). Also, at least two doctors whose practices were large, and unaffiliated with the University of Miami (UM) suspiciously died (more below). As brief background, I worked for UM reporting cancer data to the State and was fired on 6.12.17, after 12 years, for reporting a threat by my boss on my evaluation response for 2016 (it was a good evaluation). I had reported multiple instances of cancer data manipulations, in violation of State law. I believe UM, the State (FWS and FL DOH), the FBI, and Miami-Dade County (MDC) have all been aware of and involved in this hell, which is still ongoing. I am still pursuing due process and justice for individuals harmed, for America, Our Constitution, and Republic, Of, By, and For The People.

Because of family history, I see several doctors for follow-ups. One very recently deceased doctor, Dr. Manuel Torres-Salichs (breast surgeon) was asked by UM to join their practice apparently for about a year prior to his death, since about the time I left Dr. Giron (Baptist) to be seen at his practice. Salichs continued to refuse UM's offer. Giron (a UM grad), it seemed, was sharing my personal information as well as family health information to UM (and/or the County, State, etc.) and I was not, obviously, comfortable with her. With the little information I know regarding Salichs' death, including timing, it is concerning, and very possibly murder by a radioactive element in drink, or some other carcinogen, leading to (I believe bladder) cancer. Whatever the cause, it is quite suspicious to me and to those who knew him better than I.

As related background, a few years ago, after a threat in early 2016 by my UM manager that something malicious happened at a surgery I had up North (this is the threat I was later fired for reporting), I went back up North for exams and continued to follow-up upon return here. (I was not comfortable having that preventative surgery here, for obvious reasons.) I had reported this threat at the time to UM's President Frenk and the Joint Commission regarding both UM and the hospital up North. Locally, I had a follow-up appointment with Dr. Manuel Penalver (gyn, Coral Gables). Upon a return appointment to him, an ultrasound supposedly viewed a bladder lesion. Work-up and cystoscopy (with a different doctor) found nothing concerning. Dr. Penalver graduated UM Medical and is currently Chair of his FIU faculty department. After that, I went to Dr. Joyce Miller's gyn practice. She received her undergrad degree from UM. It appears she is also affiliated with Femwell, which is downstairs from Torres-Salichs' practice. Salichs referred many of his

patients to Femwell. I had my breast exams at Femwell for years. Last year I had an MRI at Femwell and the technician did not put pressure on the needle puncture after pulling the contrast needle; she did not say anything to me, and blood spewed all over my arm and copiously onto my sleeve, as I had quickly put my shirt on and did not initially notice the bleed. I went upstairs and told (referring) Dr. Salichs' secretary what had happened. She said Dr. Salichs wants to know about anything like that occurring and she would let him know. Since his passing, a new doctor has been hired to take over Salichs' practice, which will now be under Femwell's management. This new doctor has agreed to work with UM.

A similar type of incident occurred at my last (ever) visit to UM's Bascom Palmer Eye Institute a few years ago. A few minutes after the technician put drops in my eyes she asked me if it was "stinging". Fortunately, it never did, and it is never supposed to. That, I believe, was deliberate harassment, if not a threat. Also, my first breast MRI I had was at UM (as an employee, per insurance agreement). At that time the nurse inserted the saline too quickly (I believe deliberately), my hand painfully swelled, and she had to change the needle to the other hand. More recently I saw Dr. Joyce Miller for my yearly check-up and ultrasound, and she said there was a small nodule in my cervix and scheduled me for a scoping procedure. I went for another opinion and ultrasounds and nothing concerning was seen.

The other doctor I wanted to mention, Dr. Cosmides, was a long-time dermatologist in Coral Gables. He was my doctor, and a wonderful person. They called him a 'doctor's doctor'. He was a sole practitioner, and not affiliated with UM. He had a large and distinguished practice. On the eve of his death, everyone knew he was going to a particular Greek restaurant for his 30th wedding anniversary. The next morning he woke up feeling ill, went back to sleep, and never woke up. This was likely murder using a high-level, supposedly secured biologic. He was very healthy and had a negative partial autopsy. The doctors who took over his practice are affiliated with UM. More recently I found out that my dentist, Dr. xxx had passed away. He had the flu, but everyone was surprised at his death while hospitalized. The date and circumstances are concerning as well. OTHER deaths (than those mentioned here) I reported in the 40-page court submitted document. Many of these deaths are on birthdates of people I know and am close to. My listings here, on my website, and in the 40 pages, are NOT inclusive; there are other suspicious illnesses and deaths.

This horror escalated AFTER the State completed their investigation of UM a few years ago (these cancer data manipulation complaints in violation of State law went up to the FL DOH OIG, more below). I have much documentation submitted to governmental overseeing agencies as well as at my website ourconstititution.info. Flamm (and likely some at UM, State, MDC, FBI) appear to feel they are entitled to take the law into their own hands. Certainly, UM also feels they should be entitled to do whatever they want, including illegally and unethically, without repercussion. It seems this horror I have documented was sanctioned and/or allowed to continue at the highest of levels – Senator Rubio knew about my concerns and did nothing. I had emailed President Obama (and Rubio), specifically regarding the murder of Joan M (see website Home page), with no response. Rubio is the recipient of large amounts of money from a very wealthy Jewish benefactor of UM, Norman Braman. Flamm, and many administrators at UM, and many entities I reported my concerns to throughout the State are Jewish (as am I). See more names at Home page (Complaint to State, AG, CIG, AHCA).

There are good and bad people in all groups, and there are probably more regional and global conflicts in the World due to religion, than anything else. While initially working with Flamm in 2000 or so, he had asked me if I was Jewish, which I felt was an inappropriate question in this situation; I strongly believe in the separation of church and state. I answered yes, and he told me that he also was Jewish. Our other conversations mainly focused on this research work and data collections. A few other details are documented in the letter below. Of course, with my concerns, I should not and do not at all feel comfortable further communicating with him,

and in fact feel he should be investigated, and perhaps in prison (along with many at UM, maybe the State, County, and FBI). UM's Susanna Arias Morales told me pointedly that she had a relative in the FBI – I never received the first return call from them.

I feel bad that Flamm and some of these others I've referenced are Jewish – I was taught that Jews should be representatives of society, people others look up to, and kind personalities as well. For those Jews, and everyone, in the police and criminal justice fields, etc., it is even more important that they do their job beyond reproach. I don't know how Flamm is even working for the government, but the Constitution does not seem to matter to him (or UM, the State, County, and some in the FBI). I am proudly Jewish, but as an American, believe in and uphold the US Constitution. I believe Flamm (and any/all of the other Jews referenced) may have greater allegiance to Israel, and may be an operative in those regards? An ADL representative told me they do not condone any form of radicalism. That may be true, at least as far as that person knew. Flamm could be a Kahanist/JDL or Mossad contact. That is likely treasonous, but Flamm and the other co-conspirators and collusionists I have mentioned are indeed acting with such impunity... Why are they so protected? Something awful is going on... Flamm should not be working with students, and I want nothing to do with him, as I am sure you can understand. I would also say the same about the individuals colluding and conspiring in these regards, in this case from UM, the State, the FBI, and MDC.

It was horrid that I was allowed to be in this situation, and that Flamm was allowed to 'carry-on' with this 'recruiting' of students, for what reason I am not sure exactly. He has an office at FWS in Tampa, and is not an academician. He did go to Texas A&M, which has been known to be a CIA hub. Perhaps he is operating in that capacity? What I am reporting is clearly 'radical', regardless of the etiology. I firmly believe the CIA should be OUT of our schools (FBI as well if they're there), but for job fairs and teaching as retirees, with full disclosure. I do believe there needs to be a separate, new entity dedicated solely to monitoring foreign agents on campuses.

As mentioned, I am also a fired whistleblower from UM, which, at one point, if not still, was the second largest CIA hub to Langley. At UM I reported cancer data manipulations in violation of State law, and do believe UM is involved in this high-level retaliation. The retaliation escalated after the State finished its review of UM (stating that UM employees are not State employees). At my website ourconstitution.info, Home page, I have links to two of my UM complaints, the Joint Commission, and OIG HHS in DC. The State overseeing Tumor Registry is located at UM's medical campus, and UM hires and fires those employees, hence overseeing its own data. My (then) manager's wife, Meg Herna, is a high-level employee at that Registry, the Florida Cancer Data System (FCDS).

As this horror has escalated years after I last saw Flamm for the research, I tend to believe that UM and the State are involved, perhaps as major instigators along with Susan Markley, whom I believe is also Jewish. She was chairing the DERM meeting when I met Flamm. She likely told him I was Jewish, and so he actually knew that prior to 'recruiting' me. (I hardly knew Markley but assume she realized I was Jewish, from my name, general knowledge, etc.) Markley may be radical -- it would appear so – in one form or another. She is a UM grad. I believe UM is as dangerous or more so than Flamm, and may be just as radical, if not more. UM is private, has a lot of money, and is known to have many Jewish employees and backers. Besides Norman Braman, who I mentioned above, an elderly Jewish lady, Anne Adelman, worked in my UM department for years and would often, vulgarly and beratingly, tell me to "go to Temple". She was/is apparently extremely wealthy and was/is, apparently, having a long-term affair with one of the elderly, married, senior level UM MD administrators. I believe all of these circumstances make UM my primary concern in the fomenting of my situation with Flamm into further retaliation and horror, particularly after I reported UM to the State for the cancer data manipulations and further retaliation. When Stuart Herna, my UM manager threatened me, he

said that I had, "complained about a lot of people". Herna is not Jewish, and I am sure the orders came from above him, regardless. Jews and non-Jews are involved in this hell. As mentioned, Susanna Arias Morales, a UM lead worker told me pointedly that she had a relative in the FBI – I never received the first returned call from them. Herna and Morales I am quite sure are both knowledgeable about this retaliation (including killings), and likely could be criminally charged. I am sure they have not had the first interview or investigation of their calls, emails, etc. in regards to these very serious complaints, despite my years of documentation and reporting. UM is a powerful, evil protector ...

UM seems to indeed feel that they are above the law, and as mentioned, you can see my Joint Commission submitted documentation (and FWS, FIU, etc.) at my website (Home page). I was fired on 6.12.17, within two weeks of signing off on my 2016 evaluation. This was after 12 years there, and after a good evaluation and approximately \$10,000 raise. I had reported a threat by my manager in that evaluation response (I had also reported it when it happened, in 2016). I have been using the term Medical-Military Industrial, and as Trump told O'Reilly, we do have "a lot of killers" (video at my Links page), in and out of hospitals. If you go to my site please also see the link (Home page) to the "Murder of Joan M". This death was a month or so after I reported UM to the Joint Commission. Joan was a patient of UM's, who I knew very well. She was killed in a nearby hospital; she was not at all imminently, mortally, or lethally ill. The morbid, hacked emails that time-lined her death and details of her in illegal restraints are also there.

See also the Medical-Military page under Home. There's even much more horror... Scarily as well, this is being covered-up by overseeing agencies, and Jewish people and groups that know about this. UM is blacklisting me from work and defaming me as well. Many are seeming to agree with such hell, or I think more likely, are just too fearful to speak up. UM appears to be much more powerful than any university should be, especially for all the wrong reasons. Patients, and everyone, need much more protection – including options of recording cameras everywhere in medical facilities, real-time monitoring of ingested and injected biologics and chemicals, tumor markers and other labs available to patients without MD approval, and by using a pseudonym (for non-communicable illness), if requested. My tumor markers and lab work have been deliberately falsified and altered, with virtually impossible results, as well as visit documentation verified as false by the lab technician. I have no doubt that in the public, tumor markers are falsified so that by the time one knows of disease progression or diagnosis, it is too late for a cure (a way to kill), and the treatment is then more costly (i.e. more lucrative). The medical industry has far too much power for their own good, as well as the people's. We have begun that steep and treacherous descent.

As mentioned, I agreed to help with Flamm's data collection at the initial DERM meeting I had met him at, not knowing him (still don't), and not fully understanding the details of the project. He wanted a paper, and I like to write, and said ok. I thought it could be a paper on whatever I wanted regarding the research. I did do a thesis focusing on my sociological interest and IPOR phone survey on boaters and manatees, data Flamm also received.

It is unconscionable to me that any organization can know of, and/or participate in such horror as I am describing, under any circumstances. There are legal means in America whereby we handle such complaints, it is called our legal system (and Constitution), or even a phone call or email as clarification is routine. The State has plenty of available resources to do so, and one must be very concerned that THEY opted to, likely along with UM, MDC, and very likely the FBI, go 'rogue'. If people in such responsible positions in this Country don't believe in due process, and/or that 'no one is above the law – or beneath it' – they should get in another line of work, or maybe leave? Many of those involved, or with knowledge, should be in prison. They are scarily, lethally, and unconstitutionally, affecting other people's lives and society in general. Moreover,

after all the work I did on the research, but yet never heard from Flamm - I assumed there was indeed some conflict between my professor and him.

I look at kindness and understanding as important traits; Flamm's ability to help with grant money was incidental, much less important to me, and again, I wish I had never met him. I would have still continued with my studies and degree. I am glad to give whatever amount is fair, back, but would have much more appreciated that he had not facilitated and/or been a part of this hell to begin with, and that he never even began 'recruiting' me, or anyone. It would seem Flamm and I are very different people, and have very different values. He did get all the data, and I do see this as being something UM, the State, County, and possibly FBI have taken advantage of to foment this horrid hostility, which I believe is retaliation for my reporting cancer data manipulations in violation of State law. As I said, things escalated after the State DOH OIG finished their 'investigation' of UM. Regardless, it is all illegal and unconstitutional.

I have written numerous State entities and lawmakers requesting that anyone working with students be vetted, and abide by the US Constitution. I have also requested that the CIA is OUT of our schools; they are known to have hubs at several universities. I am glad to forward you these documents upon request, along with the 40-page court submitted paper referred to below and at my website. I am glad to answer any further questions in those or any regards. I believe the CIA and FBI, and all the Intel agencies, must be reviewed and revised, or sunsetted. They certainly need valid, reliable, and verifiable oversight should they continue on. As mentioned, in whatever form these agencies continue to exist, I believe they should only be in schools for job fairs and as retired teachers, with full disclosure. A new, unique entity should be developed for the sole purpose of monitoring for foreign agents in schools.

In more recent years, Ronnie Austin at the FL FWS OIG had asked me how well I knew Flamm; he inferred he thought that I knew him very well. I told him I didn't really know him at all. The few times Flamm was here the conversation was mostly regarding the data and project. I do not know him to speak of at all. It is horrid that I was allowed to be put in this situation -- both by the State, which apparently does "know him", and yet allows him to reach out to numerous students, and by FIU (and the State again), not requiring vetting of outside entities (although now perhaps they do). Ronnie Austin had also asked me, "Don't you think he [Flamm] was mad at you?" I was incredulous, and don't recall what, if anything, I replied. Is he saying that killing people, or any of the other horrors I mention here, would then be justified??

Maybe most of this horror has been instigated by UM and their State contacts, but it seems Flamm and FWS (well, they are State...) clearly know what is going on. Flamm even showed up as I was handing out my Constitutions here (Miami) on October 15, 2017... from Tampa... not saying a word as he walked by my table at a local market... very concerning behavior. That was the same day, and around the same time, that world-wide renowned botanist and wonderful humanitarian, Larry Schokman, had a heart attack and passed at his home a few miles away. I knew him from several clubs and gardens we both frequented; a very decent, kind person.

Flamm seemed nice enough initially, but there is clearly, and evidently, a much darker side, that students should not have any risk of exposure to. If he does not follow the laws and Constitution, or looks the other way when others don't abide by them, he should not be working with students (or in government/positions of authority). As we know, students like to be helpful when asked, and usually can use extra funding. I, and I think all students, prefer to work with someone genuinely kind, compassionate, ethical, and understanding, without political, religious, or other motives and agendas, and regardless of financial incentive.

**HUMANITY'S ABYSS - EXTRAJUDICIAL TERROR COLLUSION, CONSPIRACY, KILLINGS, COVER-UP
EDUCATION-MEDICAL-MILITARY INDUSTRIAL HUBRIS OF MONOLITHIC RELIGION**

Please see my further concerns in this email below, and my request in that letter to begin some type of inter-school communications throughout the Country ... I think we are well beyond Eisenhower's and Truman's warnings, well beyond unconstitutional; it may be up to the students, and those who join them, to bring us back, if that can even be accomplished.

My duty as an American is to uphold and fight for Our Constitution, nothing less. Anything less, by any other American, is at a minimum, unethical, or as documented here, horribly illegal. No one is above or beneath the law, here in Our Constitutional Republic, Of, By, and For The People. Some don't seem to accept these important principles we are mandated to live by. We must make sure that those people are well aware of AMERICA'S founding principles, not what they think they are entitled to do -- as they serve time for their crimes. In Judaism we call such horror by Jews a shande, a sin, shame, and disgrace. As both an American and Jew, the fact that these are people who society permitted and trained to be leaders and representatives, is all the more disgraceful.

The disgust and abuse of the recently deceased Jeffrey Epstein's horrid crimes pale in comparison to what I have reported, and these perpetrators must answer for their acts. As much as UM, Flamm, and Markley apparently believe that Jews should act in a monolithic fashion, and those who dare do otherwise -- complain, or differ with them, as they perceive it, are punished, as I have been -- this attempted creation of a Jewish monolith is illegal, and indeed detrimental to society and Jewish culture. Israel is a Jewish state, perhaps that is a better option for them. America is for all people. I know UM scares plenty of people, and/or entices them financially and otherwise ... and some just can't leave work there with children in paid school (there), or for other reasons. Recall my descriptions of the doctors and others above, those who wouldn't join UM, and those who acted highly unethically, even illegally, contrary to their oaths, in their collusion with UM/State/MDC/FBI, regarding my fake scans, labs, etc. UM has wonderful employees, however, in terms of my complaints, it is a disgrace to Jews and humanity. We know there are good, decent, and ethical Jews who find this aspect of UM, and all radical Jews in this vein, despicable, and antithetical to all that Judaism, America, and humanity should stand for. No one is above the law, nor beneath it, and anyone and everyone should be held accountable, especially for such outrageous deeds as I outline here.

Thank you, and please let me know your thoughts on my requested availability of student outreach across the Country via FIU, for any and all matters. Social media can be biased, and will censor views they don't agree with. So, something truly free and open for valid concerns, 'across the board', should be available. In regards to my documentation here, I am concerned for America; whatever is allowing these unconstitutional horrors to continue, must be halted forever, and due process and justice meted. I wanted you to know what types of things have gone on related to my time with FIU. Some of these concerns are matters for law enforcement and overseeing authorities. I update them with any new information. Not sure why no investigation and arrests have occurred... My website notes some of these reportings.

Judith Futerfas

WHO OVERSEES THE UNIVERSITY OF MIAMI ?? 2015, 2018

J Futerfas
Mon 5/7/2018 10:42 AM

- Maleszewski, Joseph;
- Weeks, Rebekah;
- XXX

Thank you both again. Judy

Dear Ms. Futerfas,

Thank you for contacting our office.

As previously indicated to you, in emails dated 1/26/18 and 4/18/18 from Investigations and Audit Specialist Rebekah Weeks, the Board of Governors (and subsequently our Office of Inspector General and Director of Compliance) does not have jurisdiction over the University of Miami. Your general concerns about vetting individuals outside of the educational institution who want to work with students was provided to the appropriate unit within the Board of Governors for their information.

We have no other resource information to provide than what was already provided to you in the emails from Ms. Weeks. We consider this complaint closed in our office and will not expend any further resources regarding these matters.

Fw: 1/5=1a/4 FSC June Fw: 1/4 FLDOE Fw: 1/3 Fw: 1/2 Fw: Extremely serious concerns, suspicious deaths, threats, other harms

Dear Mr. Maleszewski,

Please review my several concerns below. I am glad to send you the complete emails (atts) and any other documentation you wish. These are extremely serious issues on a number of levels. I feel there needs to be some considerable changes to: our medical procedure surveillance, rules re: presence of intelligence agencies on student campuses, rules re: vetting of those outside of the educational institution wanting to work with students, and the prison (criminal justice) system. I do not know who else to turn to in an effort to further encourage the FLCRC to try to begin implementation of (some of) these changes before sunsetting ... I know the timing is not ideal ... But these concerns cannot wait another 20 years -- Who else would you recommend that I also bring these (respective) concerns to?

Thank very much, *Judy*

Subject: RE: Fw: Extremely serious concerns, suspicious deaths, threats, other harms

Dear Ms. Futerfas,

I received your emails (dated 4/16, 4/17, and 4/18) and your voicemail messages (dated 4/16 and 4/18). I apologize for the delayed response, I was out of the office earlier in the week and have been in meetings all day today.

As previously indicated on January 26, 2018, the University of Miami does not fall within the jurisdiction of the State University System of Florida Board of Governors, as it is a private university outside of the State University System. The only state oversight I am familiar with for private universities is the Department of Education's Commission for Independent Education, although I am not familiar with their specific authority or the breadth of their authority. I'm sorry I don't have any other information to provide to you regarding this matter.

Subject: RE: Fw: Extremely serious concerns, suspicious deaths, threats, other harms

Good afternoon Ms. Futerfas,

Thank you for your email to the Commissioner of Education. The University of Miami is a not for profit independent postsecondary institution chartered in the state of Florida. The Office of Articulation at the Florida Department of Education implements jurisdictional requirements for the Department related to the independent colleges and universities in the state per sections 1005.03, 1005.04, 1005.06, and 1013.11, Florida Statutes. These statutory provisions are specifically related Fair Consumer Practices and Physical Plant Safety. In this capacity, we occasionally receive communication from individuals who have concerns about the educational services being provided by an institution. For this reason, your email was forwarded to our office for response.

**HUMANITY'S ABYSS - EXTRAJUDICIAL TERROR COLLUSION, CONSPIRACY, KILLINGS, COVER-UP
EDUCATION-MEDICAL-MILITARY INDUSTRIAL HUBRIS OF MONOLITHIC RELIGION**

While we fully appreciate the concerns expressed in your correspondence, we are unable to address them since they fall outside the jurisdiction of this department. We wish you success in obtaining a resolution to your current concerns, and if we may be assistance regarding any future postsecondary education, please feel free to contact us.

Regards,

Office of Articulation

Subject: RE: attn: Ms. Robinson retaliation, IT/other concerns

Dear Ms. Futerfas:

As previously advised, you will have to contact the appropriate entities within the University of Miami to discuss her position and payments. This office does not have jurisdictional authority over the University system; therefore, you need to present your questions to the appropriate entities. The University of Miami Office of Audit and Advisory Services has the proper jurisdiction to handle your concerns. As you previously advised this office, you have retained legal representation. You may also contact your legal representative to discuss your concerns and any civil remedies that may be available to you. At this time your concerns are pending a Whistle-blower determination with the University of Miami Office of Audit and Advisory Services, you may wish to continue working with that office to ensure that they understand your issues. Your information provided below was forwarded to Ms. Malagon to include in her ongoing review. Upon the completion of their determination and review of your concerns, if you are not satisfied, you may wish to contact the Board of Governors by calling (850) 245-9247, or by writing to the following address:

**Joseph K. Maleszewski, Inspector General
Board of Governors
325 W. Gaines St., Ste. #1614

Subject: [Spam:***** SpamScore] RE: attn: Ms. Robinson retaliation, IT/other concerns

Thank you again. Yes, I have an attorney. However, he does not answer day-to-day (general) inquiries regarding this as I would expect Ms. Malagon would want to know--if she is acting impartially as a representative of the OIG. (Just as with Inspector Pacchioli - I had an attorney then as well.)

If I understand you correctly, her loyalty is to the University -- hence, there is NOWHERE you recommend that I can go to report to including other cases deliberately left undone (of State mandated cancer information)? The salary is not the same issue as I had in 2012 when reporting that 2012 case -- that 2012 incident makes me quite leery of dealing with UM in terms of data or anything that may speak to their bottom line, either money or data statistics related to Sylvester's cancer program and/or FCDS. However, she should be able to address the salary issue as auditor. I am also glad to answer general questions about my reporting and dates.

There *is* submitted hard evidence of the five falsified "follow-ups" from 2012, four of which Arias did. She completed the "follow-ups" by only putting a date. Hence, it looked like the patient's status had been reviewed at each of her entries, moving the date of review up even further. (Follow-up should actually be done every 1-1.5yrs so it is even more evident, with five "follow-ups" between 2010 to 2012 what was really going on...) If she had only looked in the notes she would have seen that two cancers from 2009 were missing (and all their treatments). This information is required by State law to be reported within six months. I reported this missing information when I saw the case in December 2012, about four years later. This was not the only case she was working on then -- follow-up is completed using lists with many pages of up to 35-40 patients per page. The volunteer in 2010 did the same thing -- she was under Arias' direction -- Herna was (is) based across the street. We were all instructed by Arias (Herna was in the room) to do the same type of "follow-up" in 2008. This data also goes Federally to the CDC and I can send you documentation of that if you like. Should I return to the Fed OIG in Miami that referred the case up there?

It frankly sounds absurd that, basically as contractors for the State, the abstractors have nowhere impartial (or on the side of law enforcement) to report to in situations like these. Please tell me this is not the case... Much appreciation again, Judy

Dear Ms. Futerfas:

You will have to contact the appropriate entities within the University of Miami to discuss her position and payments. This office does not have jurisdictional authority over the University system; therefore, you need to present your questions to the appropriate entities. The University of Miami Office of Audit and Advisory Services has the proper jurisdiction to handle your concerns. As you previously advised this office, you have retained legal representation. You may also contact your legal representative to discuss your concerns and any civil remedies that may be available to you.

Subject: [Spam:***** SpamScore] Re: attn: Ms. Robinson retaliation, IT/other concerns

Thank you again Ms. Robinson. I have a few questions on the dual role Ms. Malagon has. Do all universities have someone also as an OIG representative? She is a UM employee and paid by UM, correct? What are her ethical obligations in this dual role? Has UM always had this position?

Sorry about all the questions but I expressed my concern previously with dealing further with UM and gave very sound reasoning. I did leave her a message last week and she has not returned the call-- that sounds to me like a university employee's actions and not that of the OIG. Are there any other OIG offices here (Miami) that I could contact regarding my case? Please advise. Thank you again, Judy

Dear Ms. Futerfas:

Please see the attached correspondence from the Office of the Chief Inspector General. As previously advised, your concerns were referred to University of Miami Office of Audit and Advisory Services Chief Audit Executive Blanca A. Malagon. That office acts as an Office of Inspector General for the University; therefore, your additional information should be reported directly to that office. Regarding further retaliation, this information should be reported directly to the Florida Commission on Human Relations.
Sincerely,

VISIT TO SENATOR NELSON'S WASHINGTON, DC OFFICE 5.31.16

6.6.16 COVER LETTER 2 pgs

To: xxx – Senator Bill Nelson, Orlando – Fax xxx – 17 pages including this cover letter

From: Judith Futerfas

Hi xxx,

In looking over the 31 pages sent from you on 5.31.16 (to the DC office) that the Senator's Washington, DC staff gave to me there on 5.31.16, I see that some emails I had sent you are missing, including attached documents. (I know you had, at some point, told me that you had never received any emails from me.) These 31 pages you sent were emails I had sent and faxed to you (via your offices including Orlando and Tallahassee). You sent these copies to me via the DC office to let me know that they had been forwarded to the FBI. Enclosed here, in this fax, are some (but not all, probably about half) *other* pages that I had also sent to you or your offices. They include email attachments and correspondence in the email bodies themselves. If you want further proof they had been sent I will be glad to forward the actual emails to you.

I am also including a copy of the letter I wrote in your DC office on 5.31.16 requesting that the FBI address the other more serious concerns I had written them about on several occasions. (See the FBI letter to your offices dated 5.20.16 in reference to my complaints. Their letter only responds to cyber hacking.) **I had received a letter from the Senator's office a few months ago stating that the FBI would be investigating my concerns.** I do not have that letter with me currently but it seems that you should have a copy of it. My other concerns were included in the 31 pages you sent to me via the DC office on 5.31.16 and also again in these pages faxed here. The hacking the FBI refers to in their letter dated 5.20.16 was quite serious; fortunately, it seems to have abated both at work and home. **I DID SEND A LETTER TO YOU, THAT WAS INCLUDED IN THE 31 PAGES TO THE FBI, THAT WAS ORIGINALLY SENT TO, AND DOCUMENTED A MEETING I HAD WITH, UM'S IT SECURITY MANAGER, TIM RAMSEY, ON 12.10.15, AT HIS OFFICE. IN THAT LETTER (DATED 12.11.15), I NOTE THAT I HAD GIVEN MR. RAMSEY, "eight different correspondences with IT regarding: emails to and from me not being received; Metric, Citrix, and/or IE most recently inaccessible for probably about five days; the deleted and moved personal folder emails from June and October; printing rerouted from February; and my falsely started and ended FCDS abstractor code renewal exam (July) was also included."** WOULD THE FBI LIKE ME TO SEND THEM THESE DOCUMENTS THAT WERE HANDED TO MR. RAMSEY? I had also reported probably three times to the FBI via their online site and never heard back. Moreover, my local police department has at least five complaints including email and phone hacking including documentation that one cell phone number was remotely forwarded to another of my cell numbers maliciously. The forwarded phone (number) was at my apartment, and no one else was there. I had the second phone with me at work. I also showed them documentation of my security camera taking photos while it was disarmed. Numerous other hacking complaints were also documented with the Apple store, and the US and State Attorney's offices. The same types of maliciousness occurred at home and work including deleted and disappeared (before they were even sent) emails.

Futerfas pg. 2 6.6.16

Extremely seriously, at home my emails have also *BEEN ALTERED*. As I wrote your offices about, Dr. Flamm (State of Florida) had initially refused my offer in about 2011 to complete a research paper regarding my manatee study stating the reason being that there "were two speed zones." Well, there always were two speed zones at that site and flamm had assisted in my work from the beginning. He had ended the email with that justification. However, now, the emails appear as though Flamm (or someone else) went on to write that he (Flamm) had agreed to the paper. The FBI would have to retrieve the original emailed State documents to see that they are different. I assume, even as proficient as these hackers are, that they cannot delete original emails from the State system? As you probably know my thesis was very large and I did have to submit three progress reports to the State. Moreover, Flamm has had all the data since about 2003. This research data encompassed the clear bulk of the work time due to formulating, collecting, and analyzing both the boat collection on-site data as well as the boater survey phone data. A research paper would have taken a comparatively small amount of time to write compared to the research time. However, as I mentioned in letters to your offices previously, if the State would like any further discussions to resolve any issues they may have regarding my degree, I am more than glad to come to a fair resolution. I hope there are no feelings of animosity or worse involved with this issue. I intended no ill will, spent a lot of my own time and money on this education, and will respond immediately to any negative inferences or statements to the contrary. Also, just so you know, I am still paying off my school loans, the last of which was about \$12,000. Much of my own money was also spent in the preliminary classes before even being accepted into the graduate program. So, although there was State money for part of my actual research, that education cost much, much more in time and total expenses.

I also wanted to complain about Monica Fernandez, who was exceedingly rude to me while I was at the DC office. She argued about almost everything I asked, including regarding contact and communication with you, giving me another business card, giving me a copy of the letter I wrote that she supposedly emailed to you, my writing that letter to begin with, faxing the letter vs. emailing, and on and on. The two other staffers seemed nice but she should not be working there. She also told me never to come back there... I am not sure who she thinks she is but that type of behavior is not acceptable, especially in public service. I of course will return there if I feel it important to do so! Before leaving, I "tongue in cheek" apologized if I had bothered her, and she didn't say anything...What a gem Senator has in her (!!)

Please call and let me know if you do not receive all 17 pages -- 11 prior emailed pages *different than what you had sent me in DC plus 6: (1) this letter plus copies of my 5.31.16 hand written letter that Monica Fernandez said she had emailed to you and that you acknowledged receiving while on the phone with me. Besides the (2) page front and back of that written 5.31.16 letter, I have included a (1) page typed note of that same 5.31.16 letter Monica emailed to you. The FBI letter is also enclosed.*

Thank you again, *Judy*

Judith Futerfas

LETTER TO US ATTORNEY RE: UNIVERSITY OF MIAMI 2.7.16

Futerfas pg 1/2; 2/7/16

Dear US Attorney,

My name is Judith Futerfas. I am a Tumor Registrar and work at the University of Miami (UM) entering patient cancer history and other patient tumor data via computer. I have complained to UM (with no initial response) and then to the State OIG about deliberate data omissions and other deliberate data manipulations in our department. These cancer "abstracts" (including all cases and all treatments) are required by State law to be submitted within six months (to the State, CDC, etc.). (Violations are misdemeanors, maximum \$500 fine each.) The OIG stated that because UM employees are not State employees they could not take any action. (Although the long-time Director of the State's overseeing Cancer Registry, the Florida Cancer Data System [FCDS], Jill MacKinnon, PhD, resigned within the week of my reporting in September 2014 about 15 cases deliberately left undone. I had been moved back to Sylvester Comprehensive Cancer Center [SCCC] cases from the University of Miami Hospital (UMH) cases about March of 2014 and began seeing these deliberate omissions at that time. I have seen more since that reporting. These cases date as far back as 2005.) FCDS is actually managed by UM and is located on the UM Medical campus. My manager Stuart Herna's wife, Megsys Herna, is a high level, long-term data manager at FCDS. UM hires and fires FCDS staff. Because of these facts I could not go to FCDS with my complaints.

I complained initially to UM about 2011 that we were told to enter false data for patient "follow-up". I have reported on these and other issues several times since. My last reporting was to the State regarding a nurse falsifying patient information in her Tumor Board reports. This was about August 2015. I was taken off of this data entry assignment in a sharply worded email from Herna. He initially tried to put the blame on me and I responded with a detailed letter of his inaction, describing all of the emails I had sent to him expressing my concerns about this nurse's work product and her late reporting. Moreover, I was not this nurse's supervisor and she was clearly being protected. This email from me to Herna was forwarded to the Nursing Board.

I have been severely retaliated against for years, well beyond what is documented in the enclosed brief letter to the State regarding phone and email hacking. There are many, many pages of complaints and documentation at UM. (Other retaliation includes false write-ups, contrived negative evaluations, etc.). I am concerned that someone highly skilled, perhaps being paid by (or working for) the University, is behind many of my hacking complaints. I briefly provide an overview (not at all inclusive) in the enclosed letter. UM IT Security has apparently not found out who has been moving and deleting my UM emails or who has been blocking my computer access to UM internet and work sites. I more recently have felt that my personal phone, contacts, and perhaps even conversations are being compromised. I have reason to believe there is some mechanism being used that allows my words (phone) and/or movement to be tracked. Many of my UM complaints deal with internet technology and include the deliberate rerouting of my wireless printer at work and an attempt to disrupt my on-line CTR (credentialing) renewal exam. There is UM IT documentation for these complaints and many more.

I did report these internet related issues to the FBI (on-line) but never received a call back. Some of these "disappeared" UM emails were located by UM IT in the "Recovered Deleted Items" folder, a

location I never even knew existed. Other emails just disappeared before or after I received them. My access to my work programs and browser were blocked for days at various times. (What has happened to me regarding these issues is well in excess and severity compared to what ever has happened to anyone else there. There is on occasion a glitch with the computer but my complaints were [are] ongoing, deliberate, and retaliatory.) I am now entering my work computer via a highly protected interface. The work email and work internet breaches have slowed because of this. However, my personal phone and email compromises are still of great concern. My personal Hotmail email has been entered and some emails deleted and others disappeared after I sent them. Orders of emails addressees have been switched after sending. Emails I delete (from the inbox) will reappear immediately back in my inbox. There have been other email complaints and I am sure things I don't even know have happened regarding my emails (I have had these accounts for years and there are many folders). I now have second tier email security and get a code on my phone to enter as well as my password.

I should not have to be concerned over such personal and integral parts of daily life. However, this harassment has been ongoing and I do not know where else to turn. I know this perpetrator(s) can be found out--there is a footprint somewhere at UM and/or with ATT. I also have no doubt that Susana Arias Morales, a supervisor who gave these falsification instructions (in 2008 and 2010 that I know of), knows everything that is going on and knows who is behind these actions against me. I am sure she is furious with me as well for reporting her 2014 UM rehire to our overseeing organization, the National Cancer Registrars Association. I have suggested to UM IT that they check her cell and landline phone logs but I doubt they will. I also reported a high level MD administrator to the OIG in September of 2014 and I know he is very angry about that. His name was told to me by Herna during the Compliance 2012 investigation. (I assumed Herna had told Compliance what he knew about this person in regards to the investigation. The one Compliance officer who tried to do the right thing [at that time regarding my 2012 reporting of falsified patient "follow-up" and the deliberate compromising of staff who were to be interviewed] was made to leave the Medical campus for the Gables campus and has now left UM altogether. Several of my acquaintances and friends have, it seems, also been forced to leave UM.)

Most recently, about January 30, I realized that there is a current, deliberate, repetitious manipulation of my ATT Smartphone. (Other personal phone and internet complaints are enclosed in the letter to the Florida Do Not Call center.) Last week I was having difficulty saving a new number I called; it would save the PRIOR number I had called EVERYTIME I did this. This weekend I realized that EVERYTIME I called a number that I had manually entered, I had to enter it twice before it registered with the phone (and was dialed). I have NEVER had these problems since having the phone (maybe 3 months now). Other very serious concerns are mentioned in the enclosure including a security camera (linked to my Smartphone/ATT Uverse) filming me after I had disarmed it. When I realized this I immediately disconnected it. I have other very serious concerns that I would like to discuss in person. I believe these UM employees are extremely angry at my reporting and I have valid reasons to be worried for my safety, among other concerns. I would be glad to meet with you at your earliest convenience.

Thank you very much, Judith Futerfas
Xxx

LETTER FDOH INSPECTOR PACCHIOLI - UM AUDIT QUASHED 10.31.14

From: J Futerfas

Sent: Friday, October 31, 2014 3:06 PM

To: Pacchioli, Samuel <Samuel.Pacchioli@flhealth.gov>

Cc: Judith Futerfas

Subject: RE: UM

Ms. Hylton told me last week that you were the investigating officer over this. She told me on the phone a few minutes ago that she had not had a chance to meet with you as she and you had planned last Friday -- she did not know you had that day off. That was the day you went to the Speedway.

A few minutes ago she told me that she would get with you to view the documents I have sent and that she would get back to me by latest next week...She had some legislative meetings that came up earlier this week apparently. There seems to be quite a disconnect between what you and she are saying and also actually between the severity of this data fraud and the actions being taken (seemingly none).

Why wasn't I told initially that this was out of your jurisdiction? You have had this case for well over a year it seems. Your initial review was that the information was vague and you had considered the "audit" from Arias' friend although the audit was regarding her falsifications and instructions to staff to falsify data since 2008. This audit "company" provided you no documentation as to what they did or were supposed to do and would not even return your calls. I replied that I had submitted all the information I had and that no one was going to tell me when more fraud was occurring. I suggested a forensic audit since UM staff has tried to cover-up their tracks regarding data fraud including falsification, omissions, and manipulations.

I have since found further deliberately non reported cases required by the State and mentioned this to Ms. Hylton when I just spoke with her. (Including another case seen today.) xxx has done a number of these nonreported "Class 3's" and others. There is also UM administrative staff involved with this including MD's as told to me by Registry "Manager" Stuart Herna. This was when the Registry was under investigation by UM Compliance after Susana Arias (Morales') falsification of a 2009 case including four "follow-ups" from 2010-2012 that were only dates. Two cancers and all their treatments were missed until late 2012 when this case was seen and reported by me. Herna told me via phone approximately three times during that period that it was Dr. Aaron Wolfson whom UM Compliance should be looking at. I assumed he told Compliance that as well. Wolfson was and may still be active on the Cancer Committee. During these meetings the Tumor Registry statistics are reported, and can include "follow-up" and other data. These statistics are also available to doctors upon their request. A UM Compliance officer told me that they found "irregularities" in the data during their review; they did not even know the rules of abstracting and probably a lot of what to look for...Missing cases and deliberately nonreported cases (and treatments) are much more than an irregularity.

I would not be surprised if this fraud knowledge and/or instruction comes from UM administrators...It is pervasive and ongoing. However, as the managing CTR, Herna has the responsibility to see that the Registry is run ethically and fairly. Instead, he oversaw Arias' instructions to staff to falsify data. Using his authority over a subservient, dependent staff to make them commit data fraud is beyond unconscionable. Arias gave the same instructions to Swaye, the volunteer, in late 2010.

Arias, as mentioned, instructed this above referred to fraud in 2008 to the entire staff; "manager" Stuart Herna was present. In both 2008 and 2010 workers were given many pages or had available to complete many pages with 35-40 patients per page. This information was used to enter the database and put a date of contact although no patient contact or research was even attempted. That is why Arias' missed two cancers for four years in that 2012 case. I am sure there were also many more cancers and treatments missed by Arias before and after this case was "done". As you know I have all those pages Swaye worked from. Swaye's father is a medical doctor

**HUMANITY'S ABYSS - EXTRAJUDICIAL TERROR COLLUSION, CONSPIRACY, KILLINGS, COVER-UP
EDUCATION-MEDICAL-MILITARY INDUSTRIAL HUBRIS OF MONOLITHIC RELIGION**

affiliated with UM. Herna's wife Megsys is a high level, long-term data manager at FCDS, the State's Central Cancer Registry.

However, although FCDS is the State's overseeing Registry, it is UM that oversees FCDS, which is located at UM's medical campus. UM sets the salaries, hires, fires, demotes, promotes, etc. FCDS workers. The State may approve final employees, however, it is the UM workers who decide who is even in the running for a job, before the State is even involved. Due to this serious conflict of interest I could not and would not go to FCDS regarding my complaints. FCDS should be run by the State entirely, at a stand-alone location.

You had also mentioned last week possibly referring this to the FDLE. Why is the DC office of OIG better? You have spent time on this--isn't it best and most productive for you to forward what you know to the agency that would be best suited for investigating crimes regarding Florida law? As you are aware the statute requires all cancer cases and treatment to be reported within six months. That includes all classes of cases: 1,2, and 3.

Subject: RE: UM

Ms. Futerfas, first, there are no active investigations open regarding your concerns. My investigation done earlier is closed and I am not planning to re-open it. Your complaint about UM employee's is out of my jurisdiction and authority I cannot open investigations on NON-DOH employees. Ms. Hylton and I have spoken and I have told her the same thing I am explaining to you. If UM is not doing their job right you may want to send your complaints to the Dade County Office of The Inspector General for their consideration.

Respectfully

Inspector Sam Pacchioli

7.13.20

Just horrid. Thank you for keeping this in the public eye - much more needs to be done to protect these children. I think most non-orthodox Jews don't even know about it. I presented this problem to a regional Hadassah meeting in hopes they would pick up the cause, but they did not. It seems they then agreed to have some focus on abuse of girls only. A Holocaust survivor at that meeting was beside herself, she had no idea. She told me, "This is worse". (I have since left Hadassah over this inaction and for other reasons.) A male survivor had offered to speak as requested, and was denied by both Hadassah and a local, liberal Shul. (I admit, he warned me people want this hushed-up...) This is clearly a pervasive, vile problem but I indeed hardly ever hear anything about it. For shame. More horror of a different type (as far as I know), documented at ourconstitution.info. Some Jews should be excommunicated to the fullest extent, besides imprisoned. Shouldn't we all be protesting for more protection for Our Children, and accountability for perpetrators?? Aren't children in more danger during this virus lock-down period? What can we do?

https://www.jewishpress.com/indepth/opinions/why-nobody-likes-the-jew/2019/12/19/?spot_reset_password=success&spot_ticket=setemailpswd_hIXPIb9o20Ft&email=info@ourconstitution.info by Helena Hawkins

1.11.20

As Jews, many of us believe we should be a mentor and inspiration for others, even humanity -- I agree. I also think we truly are that, to many people!! Everyone should really think like that about their own cultures! Fact is, we are all just human, and all groups have bad and good among them. We all should report wrong-doing wherever we see it. This is especially important regarding the groups we belong to, and if we want others to do the same.

As a Jew I have been retaliated against for complaining when other Jews are involved in things I consider wrong, or against work regulations, for example. The retaliation has been horrid, and I have a very scary book linked to (no cost) at my site, ourconstitution.info.

I believe, as an American, that the Constitution has close to ideal guidelines for fair and ethical living. I think we should all abide by those rights, including Due Process, and that no one is above the law, nor beneath it. I even protest in Miami, if anyone wishes to join me. You can see these pics on my site at Outreach. We must protect First Amendment rights, whistleblowers, patients, students, and all of us. Part of my book title is "Rise of the Medical-Military Industrial" ... Very, very scary and we should ALL be concerned. We should demand investigations, and no one, Jew or non-Jew (both involved), should be able to continue this horror.

Hitler had already awarded Ford the order of the german eagle for services rendered.

mic dot com articles/142991/edwin-black-ibm-nazi-holocaust-history

"...In Hitler's Germany, it's said, the trains to the death camps ran on time. What goes unsaid is why they worked so efficiently, transporting Jews between ghettos and concentration camps on a tight schedule: They were powered by IBM.

Although dozens of companies, such as Coca-Cola and Kodak, made clients of Nazi Germany, a few American multinational corporations stand out for going the extra mile. They didn't just sell tools and products; they collaborated with the Nazis in creative ways to help them design and execute the systematic destruction of the Jewish people.

Ford and GM are often cited for manufacturing vehicles and weapons for the war effort, but tracking people, trains and logistics was in IBM's hands. In fact, the IBM Hollerith machine, a tabulating machine that ran on punch cards, was an essential tool for executing the logistical challenges of the Jewish extermination during Hitler's regime in a world before computers.

It was a part of Holocaust history that faded into history — until 15 years ago, when a man named Edwin Black brought it to light..."

7.23.20

What about his "hands-off" approach to states when lives were being lost over PPE (and testing, masks, etc.), and the whole country was pleading with him? A show of force is important (to him), but not that? This is absolutely such a horrid contradiction... I think the states and cities should refuse the "help".

"We the People ... in Order to form a more perfect Union ... promote the general Welfare ..."

6.26.20

I agree with having public statues and symbols that represent the goodness of humanity, courage, and hope. The US seems to be actively trying to right the wrongs in these regards. It is positive, in the wake of more horrid deaths of people of color, to see so many entities making unsolicited changes that speak to these concerns.

I think statues that represent the worst of such times and attitudes, as referenced in this article, should be moved away from public locations. They should be preserved, toppled or not, and in museums. We should have the option to visit these relics, study them academically, or show them to school groups.

In America, we also still have buildings (and companies) with names associated with the rise of Nazism. See books by Edwin Black, also found at my Links page, ourconstitution.info. I am still waiting for these building names to be changed. I hope Americans demand as much when they realize, or acknowledge, these horrid facts as well.

7.22.20

“...it’s going to be under control...”

We had important tools to make sure this silent terror went nowhere, including **locking-down like 9/11 when China silenced doctors and allowed no access**. The PPE bidding war cost precious time and lives. It was disgraceful we did not have optimal supplies. (This was the reason Drs. Fauci & Adams said masks were discouraged. <https://townhall.com/tipshe...> As it turns out, other than N95s, **face shields & certain masks are easy to produce, and we should have**.

Per NYT reporting, <https://www.nytimes.com/202...>, **scientists knew early-on about asymptomatic spread between people**, but no one, including these scientists, told us. Also, Burr and others in Congress, BOTH SIDES, likely CDC, NIH, Intel, Judiciary, Gang of 8, etc., **knew of the imminent viral spread here, but shamefully, only told a few favored constituents.**

I am glad Fauci is speaking out, but **there should have been much more disclosure at many levels, early on, when Our Welfare was known to be at risk, by those who should have made a difference.**

Too many weird, wrong (obviously) steps about this entire horror. Makes one wonder **who Trump was/is taking orders from**. See more on this at my site ourconstitution.info. With their short terms, presidents are extremely susceptible to greater powers -- military, Intel, etc. (...JFK...) What are the checks on that?

I think we should have **military conscription** here, in a variety of jobs, at least until wars end. That would help balance out this power inequity. Also, we should all want a say regarding wars, weaponry, our policies, and future. We do remain separate from the military at OUR OWN PERIL. **Money and parties out of politics.**

More we all should know at ourconstitution.info - medical-military and use of biologics on our own. High-level lethality in/out of hospitals. Protect Patients, Students, and ALL of us.

“We the People ... in Order to form a more perfect Union ... promote the general Welfare ...”

So is that "money and parties out of politics" but the military IN?
Have you no sense or recognition of history?

ourconstitution.info GormGulthyn • a day ago

You should not make such broad assumptions based upon a few lines of writing. The military is not involved with our political process to nearly the extent \$\$\$ and parties are. The military budget and roles are dependent upon those representatives who, under the current system, are influenced to vote in certain ways, for or against the military roles, weaponry, wars, etc. This could be due to funding from related manufactures, Intel orgs, places that have bases, or the opposite type of lobbying, etc. As I wrote, I think there should be conscription, in a variety of jobs, until **there are no more wars**. If we would all be sent off, and we **ALL** have a say, there will be less conflict. If you take \$\$\$ and parties out, and have a cap on spending to run for office (using the personal name only, not a party), with subsidies to that max for those needing it, then that huge influence of money is out. The very divided duopoly is also out (us vs them), and the wishes of WE, The People, become paramount. Washington hated parties, if that's any further indicator of what we should do.

GormGulthyn ourconstitution.info • 19 hours ago

No - it still sounds to me as if you are suggesting some kind of military role in our governing process.

That is completely unacceptable.

Also, if we take Parties out of the equation, individuals elected would be even more prone to pressure from interest-groups and business lobbies.

ourconstitution.info GormGulthyn • 16 minutes ago • edited

It may sound (?) like that to you but I said nothing of the sort. It would only be a part of the governing in that we would all be a part of it, and all have a vote. That would mean less war - if everyone (within the age, etc. requirements) must join and serve in war. To your last comment, I said \$\$\$ out (along with \$ equivalents, favors, etc.).

The military is not in the Constitution as a branch of government, however, as things are now, we must heed Eisenhower's and Truman's warnings, before it is truly too late. We have high-level lethality against our own (nothing new, see link below), including biologics (in food, anywhere), and extrajudicial killings in hospitals as well, via injection and ? (death by "heart attack, "high" lab values, etc.).

Tumor markers are being falsified so that by the time a person is diagnosed or realizes there is disease spread, it is too late to cure. Some suggestions for how to protect patients are at my site. Reasons for this barbarity include hate, retaliation, rivalry, need for cadavers, body parts (?), patient costs too much, make more money to treat than cure, etc. There must be a National Student Bill of Rights as well (see my site). CIA OUT of our schools. Protect patients, students, and all of us - protest this also, NOW!!

"We the People ... in Order to form a more perfect Union ... promote the general Welfare ..."

<https://www.eisenhowerlibra...>

<http://www.ourconstitution....>

Eisenhower:

"...we must guard against the acquisition of unwarranted influence, whether sought or unsought, by the military-industrial complex. The potential for the disastrous rise of misplaced power exists and will persist. ... We must never let the weight of this combination endanger our liberties or democratic processes. We should take nothing for granted. Only an alert and knowledgeable citizenry can compel the proper meshing of the huge industrial and military machinery of defense with our peaceful methods and goals, so that security and liberty may prosper together..."

<https://libertarianinstitut...>

<https://www.trumanlibrary.g...>

Truman:

"...But it got out of hand. The fella ... the one that was in the White House after me never paid any attention to it, and it got out of hand. **Why, they've got an organization over there in Virginia now that is practically the equal of the Pentagon in many ways. And I think I've told you, one Pentagon is one too many.**

Now, as nearly as I can make out, **those fellows in the CIA don't just report on wars and the like, they go out and make their own, and there's nobody to keep track of what they're up to. They spend billions of dollars on stirring up trouble so they'll have something to report on. They've become ... it's become a government all of its own and all secret. They don't have to account to anybody.**

That's a very dangerous thing in a democratic society, and it's got to be put a stop to. The people have got a right to know what those birds are up to. And if I was back in the White House, people would know. You see, the way a free government works, there's got to be a housecleaning every now and again, and I don't care what branch of the government is involved. Somebody has to keep an eye on things.

And when you can't do any housecleaning because everything that goes on is a damn secret, why, then we're on our way to something the Founding Fathers didn't have in mind. Secrecy and a free, democratic government don't mix. And if what happened at the Bay of Pigs doesn't prove that, I don't know what does. **You have got to keep an eye on the military at all times, and it doesn't matter whether it's the birds in the Pentagon or the birds in the CIA..."**

O SAY, CAN'T YOU SEE? IF WE ARE NOT THAT BEACON, WHO WOULD BE?

<https://www.history.com/topics/world-war-ii/nuremberg-trials>

Findings at Nuremberg led directly to:

United Nations Genocide Convention (1948)

Universal Declaration of Human Rights (1948)

Geneva Convention on the Laws and Customs of War (1949)

<https://www.history.com/topics/19th-century/the-star-spangled-banner>

“...Though his celebrated anthem proclaimed the United States “the land of the free,” Key was in fact a slaveholder from an old Maryland plantation family, and as a U.S. attorney argued several prominent cases against the abolitionist movement. He did speak out against the cruelties of the institution of slavery, but did not see abolition as the solution. Instead, Key became a leader of the colonization movement, which advocated the relocation of black slaves to Africa...”

Descendants Read **Frederick Douglass' Speech** | NPR 7.4.20

Those with authority and power have the ultimate responsibility to uphold decency and humanity, and ensure that the law does as well

(blank page)

<https://en.wiktionary.org/wiki/shanda>

From Yiddish שאנְדָה (shande). Shonda

Noun - shanda (Jewish) shame; disgrace.

<https://en.wikipedia.org/wiki/Hubris>

In its modern usage, hubris denotes overconfident pride combined with arrogance.^[2] Hubris is often associated with a lack of humility. Sometimes a person's hubris is also associated with ignorance.

<https://www.merriam-webster.com/dictionary/monolithic>

Constituting a massive undifferentiated and often rigid whole - a monolithic society. Exhibiting or characterized by often rigidly fixed uniformity - monolithic party unity.

<https://www.thefreedictionary.com/dogmatic>

Asserting or insisting upon ideas or principles, especially when unproven or unexamined, in an imperious or arrogant manner. Characterized by such assertion, often with an unconsidered rejection of criticism.

<https://www.merriam-webster.com/dictionary/extrajudicial>

Done in contravention of due process of law.

Do not judge, and you will never be mistaken. Jean-Jacques Rousseau

Judge tenderly, if you must. There is usually a side you have not heard, a story you know nothing about, and a battle waged that you are not having to fight. Traci Lea Larussa

*The Bible stokes fear and judgement;
Our Constitution demands due process and justice.* Judith Futerfas

Psalm 15 (This is often said at Jewish funerals. There are preferable, soothing, less dogmatic passages):

God, who may abide in Your House?

Who may dwell in Your holy mountain?

Those who are upright, who do justly;

Who speak the truth within their hearts;

Who do not slander others, or wrong them, or bring shame upon them;

Who scorn the lawless, but honor those who revere The Lord;

Who give their word, and, come what may, do not retract;

Who do not exploit others; Who never take bribes.

Those who live in this way shall never be shaken.

US Constitution, Amendment V:

No person shall be held to answer for a capital, or otherwise infamous crime ... nor be deprived of life, liberty, or property, without due process of law.

https://www.law.cornell.edu/wex/religion_and_the_constitution

Because of their belief in a separation of church and state, the framers of the Constitution favored a neutral posture toward religion. The members of the Constitutional Convention, the group charged with authoring the Constitution, believed that the government should have no power to influence its citizens toward or away from a religion. The principle of separating church from state was integral to the framers' understanding of religious freedom.

There is no standard US Student Bill of Rights.

Laws and/or regulations must include:

***All People** working with one or more Students, in and/or outside of the academic institution(s) and regardless if these institutions are public and/or private, or any other combination of designations, must be vetted, abide by the US Constitution.

****All People** working with one or more Students must fully disclose to these Students and the academic institution(s) any and all Intelligence related work and/or activities, paid or otherwise, for the US and/or all other entities.

*****All Students** have All Rights as conveyed by the US Constitution, including a Right to Self-Determination and to Due Process.

Protect Patients, Students, & ALL of us, NOW!
